

Flood Control/Streambank Stabilization Project on Tinley Creek in Crestwood, IL

Project Number: 10-883-AF

Service Area: Calumet

Location: Crestwood, IL

Engineering Consultant: CH2M Hill Engineers, Inc. and Infrastructure Engineering, Inc.

General Contractor: To be determined

Estimated Construction Cost: \$4,101,000

Contract Award Date: May 27, 2015*

Substantial Completion Date: September 1, 2019*

Project Description: This project will increase the conveyance capacity of Tinley Creek downstream of Central Avenue and will stabilize approximately 1,000 linear feet of Tinley Creek downstream of the conveyance improvements.

Project Justification: Safety/Regulatory. This project will provide protection from the 100-year flood event for approximately 173 structures and will protect an existing bike path, a commercial building, two pedestrian bridges, and potable water infrastructure from failure due to erosion of the streambank.

Project Status: Project design is complete.
