

Flood Control Project for Upper Salt Creek

Project Number: 10-884-AF

Service Area: North

Location: Palatine, IL

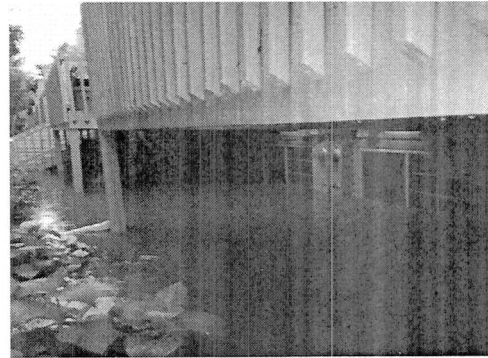

Engineering Consultant: Black & Veatch Corporation

General Contractor: To be determined

Estimated Construction Cost: \$1,451,000

Contract Award Date: May 7, 2015*

Substantial Completion Date: May 11, 2016*

Project Description: This project will reduce flooding damage by bypassing flow from an inundated area south of Dundee Road to an outfall into Upper Salt Creek, which will be located south of Cherry Brook Village, in the Village of Palatine. The proposed project includes approximately 1,100 linear feet of storm sewer, an engineered berm, and backflow preventers.

Project Justification: Safety/Regulatory. This project will help alleviate public health and safety concerns by reducing overbank flooding affecting 18 structures within the Village of Palatine.

Project Status: Contract plans and specifications, right-of-way, permits, and intergovernmental agreements are being finalized. This contract has a planned advertisement date of January 2015.

This project is funded under the Capital Improvements Bond Fund. See Section V Capital Budget for additional information.
