

## **Streambank Stabilization Project for the West Fork of the North Branch of the Chicago River**

**Project Number:** 11-052-3F

**Service Area:** North

**Location:** Northbrook, IL

**Engineering Consultant:** AMEC E&I, Inc.

**General Contractor:** To be determined

**Estimated Construction Cost:** \$448,752

**Contract Award Date:** April 21, 2016\*

**Substantial Completion Date:** April 26, 2017\*

**Project Description:** This project will stabilize the eastern streambank along the West Fork of the North Branch of the Chicago River through construction of a 155-foot gravity retaining wall. The project will protect two residential properties and utilities from active streambank erosion.

**Project Justification:** Safety/Regulatory. This project will address public safety and protect two structures and utilities in imminent danger of failure due to active streambank erosion.

**Project Status:** Project design is complete.

This project is funded under the Capital Improvements Bond Fund. See Section V Capital Budget for additional information.

\*Information shown is estimated.
