COOK COUNTY SHERIFF'S PRESCRIPTION DRUG TAKE BACK PROGRAM

Fiscal Year 2018 Annual Program Evaluation
Reporting Period of December 1, 2017 through November 27, 2018

Purpose

This report is intended to assess the effectiveness of the Cook County Sheriff's Prescription Drug Take Back Program (the "Program") in preventing pharmaceutical drugs from entering Illinois waterways, as required by Article 2F of the Intergovernmental Agreement ("IGA") between the Metropolitan Water Reclamation District of Greater Chicago (the "District") and the Cook County Sheriff's Office (the "Sheriff's Office"). The referenced IGA became effective on January 1, 2018. This report, however, includes one month of activity, December 2017, which precedes the referenced IGA in order to provide a full twelve month assessment. Please further note that the December 2017 activity is not duplicative of previous IGA reporting or program funding.

Overview

Administration of the program over the past twelve-month period has been focused on maintaining and strengthening municipal partner sites with installed receptacles. Throughout the twelve month period, the Program has complied with U.S. Drug Enforcement Agency, Drug Diversion ("DEA") and U.S. Environmental Protection Agency ("EPA") regulations governing prescription drug take back programs in addition to those established by state statute. Collection from permanent collection sites was performed by Cook County Sheriff's Office law enforcement officers in cooperation with municipal law enforcement agencies according to procedure established for handling drug evidence. Destruction of collected pharmaceutical drugs occurred through two U.S. Drug Enforcement Agency, Drug Diversion, Region V Take Back Events and at Covanta Recycling Facility/Hazardous Waste Program, Indianapolis, Indiana, credentialed by DEA and EPA, wherein two Sheriff's Office law enforcement officers personally escorted and observed the destruction events. Personal identification information found on collected prescription drug containers was destroyed by shredding and recycling of the plastic containers.

45*

Statistical Summary

Total Number of Program Collection Sites:

Total Number of Sheriff's Office Receptacles Deployed:	42
Total Number of Sheriff's Office Collection Events: (see detailed Collection Event data below and in the attached chart)	544+
Total Number of Sheriff's Office Destruction Events: (see detailed Destruction Event data below and in the attached chart)	6
Total Amount of Prescription Drugs Collected (in pounds):	7398+
Total Amount of Prescription Drugs Destroyed (in pounds):	6791**

^{*}At the end of the preceding IGA, one municipality opted out of the program.

⁺Collection and weight totals is incomplete for the month of November due to the date of this report.

^{**}Destruction and weight total is incomplete for the month of November due to the date of this report.

Conclusion

The current program year provided sustained results in collection of prescription drugs and diverting them away from Illinois waterways with full compliance with federal and state drug enforcement and environmental protection laws. The Sheriff's Prescription Drug Program estimates that at a ratio of 1165 pills per pound, the program destroyed more than 7,911,515 pills in Fiscal Year 2018 and more than 16,969,972 over the past two years.

With a collection system established throughout suburban Cook County, the program will focus on raising awareness about the program and the need for community residents to participate in it. Villages that excelled in collection appear to be those that readily promote prescription drug take back efforts through notification in their community newsletters, on their webpages, and sponsorship of community drug-take back events. In the coming year, the Sheriff's Prescription Drug Take Back Program will work with those villages where collection totals were relatively small by expanding promotional activity through its social media, mail back out reach and community takeback events.
