Dear Sir:

Request for Proposal (RFP) documents have been prepared for Professional Services to Assist with the Development of Odor Control Strategies at the Egan and O'Brien Water Reclamation Plants at the request of the Monitoring and Research Department. The contract will begin during the second quarter of 2017 and end on December 31, 2018.

The purpose of this contract is to provide professional services to assist the District in developing a plan to address odors at the O'Brien and Egan Water Reclamation Plants, as well as to provide technical support to the development and implementation of the odor control strategy on an as-needed basis for any additional immediate needs. The deliverables for this work will include design for capital improvements work and recommendations for operations and maintenance. The requested professional services will provide staff extension services in the event that we do not have the resources to respond to a situation that requires immediate attention, and will supplement our ongoing efforts to expedite the development and implementation of the District-wide Odor Control Strategy.
