TRANSMITTAL LETTER FOR BOARD MEETING OF MAY 6, 2010

COMMITTEE ON ENGINEERING

Mr. Richard Lanyon, Executive Director

Authority to approve and execute Permit No. 10-01-1456-C from the Cook County Highway Department for the 39th Street Conduit Rehabilitation Phase I - Bypass Tunnel, Stickney Service Area (Contract 01-103-2S Re-Bid)

Dear Sir:

In connection with the captioned project, it was necessary to obtain authorization from the Cook County Highway Department (CCHD) in the form of a permit. The permit authorizes the District to modify drop shafts and install louvers within the CCHD right-of-way, specifically along Ridgeland Avenue near 91st Street in the Village of Oak Lawn.

The District has received Permit No. 10-01-1456-C from the CCHD for the above work. The permit will be issued after the District's contractor posts the necessary bond with the CCHD.

It is respectfully requested that the Executive Director recommend to the Board of Commissioners that CCHD Permit No. 10-01-1456-C be accepted and approved.

It is further requested that the Executive Director recommend to the Board of Commissioners that the Chairman of the Committee on Finance and the Clerk be authorized and directed to execute said permit from the CCHD on behalf of the District after it is approved by the Acting Director of Engineering as to technical matters and by the General Counsel as to form and legality.

Requested, Kenneth A. Kits, Acting Director of Engineering, WSS:AP
Recommended, Richard Lanyon, Executive Director

Respectfully Submitted, Frank Avila, Chairman Committee on Engineering
Disposition of this agenda item will be documented in the official Regular Board Meeting Minutes of the Board of Commissioners for May 6, 2010
