Under this Resource Recovery Ordinance, as receipt capability becomes available, the Metropolitan Water Reclamation District of Greater Chicago may accept certain deliveries by truck or rail of high strength liquid waste, vegetative material, and other recovered resources upon such terms and conditions as the District may impose under its Resource Recovery Program to maximize the beneficial reuse of recovered resources for the production of renewable energy resources, to allow for the recovery and resale of valuable resources, to reduce greenhouse gases, to promote a more sustainable society, and to assist or enhance treatment operations at, or the
