Addison Creek Reservoir

Project Number: 11-186-3F

Service Area: Stickney

 $\textbf{Location:} \ \textbf{Bellwood}, \ \textbf{IL}$

Engineering Consultant: Christopher B. Burke Engineering, Ltd

General Contractor: To be determined.

Estimated Construction Cost: \$95,760,600*

Contract Award Date: December 2018*

Substantial Completion Date: January 2022*

<u>Project Description</u>: This project will create an approximately 600 ac-ft flood control reservoir in Bellwood just north of Washington Boulvard and east of Addison Creek. This project includes reservoir excavation and installation of necessary appurtenances for operation of the facility, such as control structure, inlet structure, spillway, piping, and a pump station.

<u>Project Justification</u>: Safety/Regulatory. This project along with Addison Creek Channel Improvements project will help alleviate public health and safety concerns by reducing overbank flooding to approximately 2,200 structures along Addison Creek from Northlake to Broadview. In addition to providing flood control benefits, this reservoir will serve as compensatory storage for channel improvement project.

Project Status: The project is currently in final design phase.

This project is funded under the Capital Improvements Bond Fund. See Section V Capital Budget for additional information.

*Information shown is estimated.
