

## Underground Storage Tanks Improvements, Various Locations

<b>Project Number</b>	22-602-21
<b>Service Area</b>	Calumet, North, and Stickney
<b>Location</b>	Calumet, North and Stickney Service Areas
<b>Engineering Consultant</b>	In-house design
<b>Engineering Contractor</b>	To be determined
<b>Estimated Construction Cost</b>	\$1,260,000
<b>Contract Award Date</b>	June 2026
<b>Substantial Completion Date</b>	December 2027
<b>Project Description</b>	This project entails improving the District's underground storage tanks, which are used for fleet fueling operations, by installing containment sumps on the submersible turbine pumps and fuel dispensers.
<b>Project Justification</b>	By 2028, regulations issued by the Illinois Office of the State Fire Marshal will require that all submersible turbine pumps and fuel dispensers have containment sumps installed.
<b>Project Status</b>	Planning
