

SECTION VI

STORMWATER MANAGEMENT FUND

Stormwater Management is organized with all revenues and expenditures accounted for in a separate fund. The District assumed responsibility for stormwater management following the passage of Public Act 93-1049 in November 2004. This law gives the District responsibility for stormwater management for all of Cook County, including areas that currently lie outside the District's boundaries.

The District has established six watershed planning councils. The purpose of the watershed planning councils is to advise the District on the development and implementation of the countywide stormwater management plan, representing concerns of local governments. Municipal leagues are responsible for coordinating the activities of the watershed planning councils.

September 10, 2024

Mr. Brian A. Perkovich
Executive Director
OFFICE

Dear Sir:

Subject: 2025 Program for the Stormwater Management Fund

The Stormwater Management Fund's program for 2025, as prepared in detail, is transmitted herewith. The budget presentation supports the request for funding of the 2025 initiatives in alignment with and in support of the Strategic Plan. The budget requests include all amendments as directed by you during the Executive Director Budget Hearings in August of this year.

The narrative provides a summary of the fund, 2025 major initiatives and challenges, and 2024 accomplishments. Supporting schedules of objectives, performance, and staffing levels present three years of detailed budgetary information.

Thank you for the opportunity to present the proposed Stormwater Management Fund budget for 2025.

Respectfully submitted,

Catherine A. O'Connor
Director of Engineering

John P. Murray
Director of Maintenance & Operations

STORMWATER MANAGEMENT FUND PROGRAMS

2025	\$130,614,100
2024	\$131,517,700
Decrease	(\$903,600)

APPROPRIATIONS & EXPENDITURES

2024 Expenditures are estimated

■ EXPENDITURES
 ■ APPROPRIATIONS

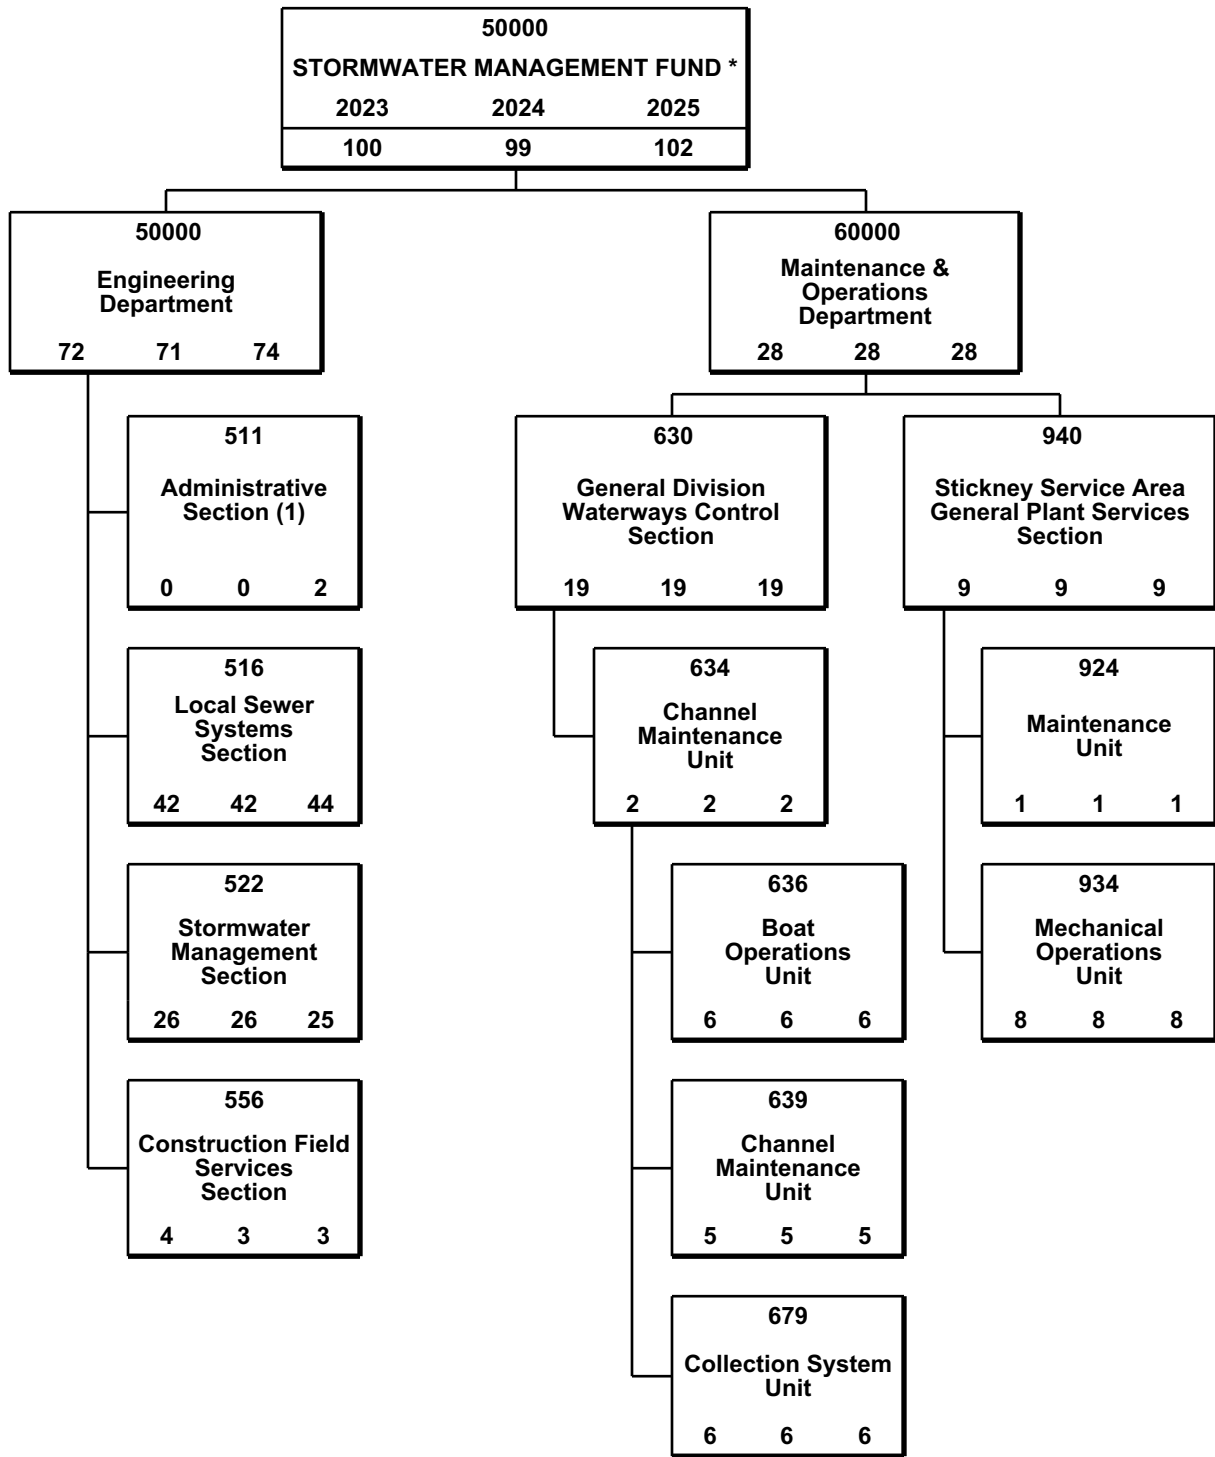

Year-over-year fluctuations in appropriations are the result of project timing.

BUDGETED FTE POSITIONS

Starting in 2019, year-over-year fluctuations are the result of organizational redesign.

STORMWATER MANAGEMENT FUND

* Positions funded by the Stormwater Management Fund are operationally controlled by the Engineering and Maintenance & Operations Departments.

(1) Effective 01/01/25, Section 511, Administrative Section, was added.

STORMWATER MANAGEMENT FUND

The mission of the Stormwater Management Fund is to protect the safety of Cook County’s residents and minimize flooding damage by coordinating, planning, implementing, financing, and operating regional stormwater management projects and to develop and enforce reasonable rules with respect to watershed development.

Fund Summary

The Stormwater Management Fund consolidates the stormwater management activities of the Engineering and Maintenance & Operations Departments and supports the activities outlined in the Cook County Stormwater Management Plan, which serves as a framework for the District’s countywide Stormwater Management Program. Under this program, the District has completed Detailed Watershed Plans (DWPs) for all six major watersheds in Cook County, initiated a Stormwater Management Capital Improvement Program, initiated a Small Streams Maintenance Program (SSMP), and adopted and implemented the Watershed Management Ordinance (WMO). Through a variety of engineered solutions, both green and gray, and flood-prone property acquisitions, the District’s Stormwater Management Program addresses both regional and local flooding problems throughout Cook County. The District has made significant investments in developing over 260 capital stormwater projects since it assumed the authority for stormwater management in 2004. The implementation of these projects, which range in both size and scope, provides flood protection for thousands of homes, businesses, and critical infrastructure. The Stormwater Management Fund supports the work of the Local Sewer Systems Section, which is responsible for the implementation and enforcement of the WMO. The WMO regulates developments throughout Cook County, sewer construction within the District’s service area, and requires compliance with the Infiltration/Inflow Control Program. Information on the Stormwater Management Program and WMO can be found at mwr.org/stormwater and mwr.org/wmo, respectively.

Summary of 2024 Major Accomplishments

- Advanced preliminary engineering, intergovernmental agreements, and design of stormwater projects through a subrecipient agreement with Cook County that provides for \$18.0 million in American Rescue Plan Act funding;
- Finalized an intergovernmental agreement with the Forest Preserve District of Cook County and advanced negotiations for a partnership with the Chicago Park District for the planning, prioritization, design, and oversight of green infrastructure projects and other Stormwater Management initiatives. Through regular coordination with the City of Chicago, additional partnerships with City agencies are also being developed;
- Assisted communities impacted from severe storm events in July and September 2023 to identify and prioritize flood mitigation projects and funding to prepare for future storm events;
- Advanced construction of channel improvements along Addison Creek in the communities of Northlake, Melrose Park, Stone Park, Bellwood, Westchester, and Broadview;
- Identified 26 flood-prone structures for acquisition throughout Cook County;
- Contributed \$1.3 million to the Village Commons Parking Lots Permeable Paver Project in North Riverside, which can capture up to 539,000 gallons of stormwater that could otherwise overwhelm village sewers during heavy storm events;
- Amended the WMO to ensure requirements reflect the District’s intent and to facilitate compliance for permittees and co-permittees.

2025 Appropriation and Position Summary

The 2025 appropriation for the Stormwater Management Fund is \$130,614,100, a decrease of \$903,600, or 0.7 percent, from 2024. The staffing level has increased from 99 to 102 positions due to the addition of one Assistant Civil Engineer position, one Associate Civil Engineer position, one Grant Administrator position, and one Grant Writer position. The staffing level increase is offset by the drop of one Administrative Specialist position. In addition, a crosshatch #1 was added to one Public Affairs Specialist position.

2025 Budget Highlights

The following budget highlights support the District’s Strategic Plan Goal of Stormwater Management. The initiatives below illustrate how the District continues to mitigate flooding across Cook County through a proactive, equitable, stormwater management program.

Develop comprehensive framework to guide proactive implementation of stormwater solutions

- Issue WMO permits and provide information to design engineers, property owners, and municipalities to facilitate the permit submittal process, as shown on the bar on the next page;
- Update sections of the Technical Guidance Manual to facilitate compliance with the WMO;
- Provide guidance to satellite entities to help them achieve compliance with the Infiltration/Inflow Control Program;
- Initiate the proceedings of amending the WMO to update permit fee requirements;
- Respond to requests for removal of debris from small streams and rivers under the SSMP;

- Continue implementation of the Volumetric Approach to the Stormwater Master Planning and prioritize areas identified with additional storage opportunities to address flooding problems.

Permit Activity

Identify and pursue opportunities for partnering on multi-benefit projects

- Advance strategic partnerships with the Chicago Park District, Forest Preserve District of Cook County, and other agencies to facilitate projects that provide stormwater and other environmental benefits;
- Provide technical assistance in the identification and evaluation of solutions to local stormwater issues through preliminary engineering services;
- Advance stormwater partnerships for green infrastructure, local stormwater projects, and flood-prone property acquisitions with local communities and other agencies;
- Identify and pursue opportunities for partnering on multi-benefit projects and for coordinating with other agencies to minimize the cost of potential stormwater management projects through grants and other funding resources.

Identify and pilot stormwater management best practices

- Provide technical guidance to property owners interested in constructing offsite stormwater detention and volume control facilities in accordance with the ongoing pilot study;
- Advance the pilot study for a suburban green schoolyard program.

SMALL STREAMS MAINTENANCE PROGRAM

Through the management of the SSMP, the Maintenance & Operations Department works to reduce flooding in urbanized areas. Cook County has little elevation fluctuation; therefore, its streams tend to move slowly and are naturally prone to flooding. Many developed areas were originally uninhabited muddy marshes with meandering streams that often overtopped their banks. The streams that flow through the neighborhoods of Cook County are more than just a scenic part of the landscape or a habitat for wildlife. They serve the vital function of draining stormwater and preventing flooding. In order to function properly, the streams must be maintained. The SSMP’s top priorities are removing blockages such as log jams, beaver dams, and other material and debris from the streams and preventing future blockages by removing dead and unhealthy trees and invasive species, such as buckthorn and honeysuckle, which choke out native vegetation from the streambanks.

Cubic Yards of Debris Removed from Small Streams and Rivers in Cook County

CAPITAL IMPROVEMENT PROGRAM

The focus of many of the Stormwater Capital Improvement Program's projects is on regional waterways in highly urbanized areas. During the design of these projects, the District focuses on utilizing natural methods for addressing streambank erosion, including the use of biostabilization measures, such as vegetated geogrids, geocells, turf reinforcing mats, and native vegetation, wherever practical.

The Board of Commissioners prioritizes potential projects arising from the DWPs on a countywide basis. Two categories have been established for DWP projects. The first category is streambank stabilization, which involves addressing critical active streambank erosion threatening public safety, structures, and/or infrastructure. The second category is flood control, which addresses regional overbank flooding.

The Stormwater Management Capital Improvement Program utilizes a variety of financing methods including bonds, state revolving fund loans, and grants, while the majority of projects are funded by property tax supported pay-as-you-go financing. The District actively pursues Federal and State grants to fund regional and local flood control projects. In 2024, the District expects to receive \$31.4 million in grants and reimbursements, including \$10.0 million from the Hazard Mitigation Grant Program for the Addison Creek Channel Improvements project and \$20.0 million from the Army Corps of Engineers as reimbursement for the District's work on the design and construction of the Thornton Composite Reservoir. Partnering with Cook County, up to \$18.0 million in American Rescue Plan Act funding to address localized flooding will be received over four years, including an estimated \$1.1 million in 2024 and \$7.1 million in 2025. Additional grants are also being pursued for the Suburban Green Schoolyard pilots and other flood mitigation projects.

Maps of flood control projects, existing flood control reservoirs, intergovernmental agreement projects, and green infrastructure projects can be found on pages [507](#) - [509](#).

FLOOD-PRONE PROPERTY ACQUISITION PROGRAM

The District's statutory authority for Stormwater Management in Cook County (70 ILCS 2605/7h) was amended in 2014 to allow for the acquisition of flood-prone properties. Subsequent to amending the Cook County Stormwater Management Plan to be consistent with Public Act 98-0652, the District's Board of Commissioners adopted a policy on the selection and prioritization of projects for acquiring flood-prone property, which is comprised of three distinct components, as follows:

- Local Sponsorship Assistance Program: The District's top priority will be to facilitate the Illinois Emergency Management Agency's federally funded program by assisting local sponsor communities in providing their share of the cost for property acquisition;
- District Initiated Program: The cost of a property acquisition alternative will be estimated for any approved project and compared to the estimated cost of the structural project determined through a preliminary engineering analysis. Should the cost of the property acquisition alternative be less than the structural project, and the benefits at least equivalent, the acquisition alternative will be pursued in lieu of the structural project;
- Local Government Application Program: The District will consider applications directly from local governments requesting property acquisition of specific flood-prone structures.

The District solicited applications from municipalities and townships for assistance with the acquisition of flood-prone structures located throughout Cook County and entered into intergovernmental agreements to partner with three communities to acquire five flood-prone structures. These acquisitions were completed in 2023 and 2024. Based on the success of the District's program, additional solicitations will be made to identify opportunities to assist local communities with flood-prone property acquisitions in the future.

Project Number	11-187-3F
Watershed	Lower Des Plaines River
Location	Bellwood, Broadview, Melrose Park, Northlake, Stone Park, and Westchester, IL
Engineering Consultant	Hey & Associates, Inc.
Engineering Contractor	Judlau Contracting, Inc.
Estimated Construction Cost	\$77,361,459
Contract Award Date	July 2023
Substantial Completion Date	May 2026

Project Description This project will improve channel conveyance in Bellwood, Broadview, Melrose Park, Northlake, Stone Park, and Westchester. The project includes various types of channel improvements, such as open channel, gabions, sheet piles, riprap, and stream clearing.

Project Justification This project, along with the Addison Creek Reservoir project, will help alleviate public health and safety concerns by reducing overbank flooding to approximately 2,200 structures along Addison Creek from Broadview to Northlake. The compensatory storage required for these channel improvements will be provided with the Addison Creek Reservoir project.

Project Status Construction

This project is partially funded under the Capital Improvements Bond Fund. See Section V Capital Budget for additional information (Capital Improvements Bond Fund = \$5,600,000; Stormwater Management Fund = \$71,761,459).

Flood Control Project on Prairie Creeks, NSA

Project Number	12-056-5F
Watershed	Lower Des Plaines River
Location	Maine Township and Park Ridge, IL
Engineering Consultant	HNTB Corporation
Engineering Contractor	To be determined
Estimated Construction Cost	\$33,941,442
Contract Award Date	September 2025
Substantial Completion Date	August 2027

Project Description	This project includes flood storage and conveyance improvements along Prairie Creek. This includes channel modifications, detention expansion, diversion sewer construction, and streambank stabilization.
Project Justification	This project will help alleviate public health and safety concerns by reducing overbank flooding to approximately 128 structures and protecting numerous buildings through streambank stabilization.
Project Status	Design

Lyons and McCook Levee Improvements Project

Project Number	13-199-3F
Watershed	Lower Des Plaines River
Location	Lyons, IL
Engineering Consultant	MC Consulting, Inc.
Engineering Contractor	To be determined
Estimated Construction Cost	\$3,902,854
Contract Award Date	September 2018
Substantial Completion Date	October 2025

Project Description This project involves the restoration and improvement of the Lyons Levee which is located on the east bank of the Des Plaines River and is approximately 4,000 feet long, beginning at Joliet Road at the upstream end and extending approximately 700 feet downstream of 47th Street to a condition that will elevate the levee to modern design standards, provide flood protection, and prevent overtopping by events up to a 100-year flood.

Project Justification This project will provide protection against overtopping of the levee during a 100-year flood. Overtopping has resulted in major flooding in the past, impacting the Village of Forest View that is located east of the levee. Overtopping could also jeopardize the Commonwealth Edison substation that is located east of Forest View and create the potential for power disruptions or failures at Midway Airport and the Stickney WRP.

Project Status Construction

This project is partially funded under the Capital Improvements Bond Fund. See Section V Capital Budget for additional information (Capital Improvements Bond Fund = \$1,358,335; Stormwater Management Fund = \$2,544,519).

Flood Control Project on Midlothian Creek in Robbins, Illinois

Project Number	14-253-5FR
Watershed	Little Calumet River
Location	Robbins, IL
Engineering Consultant	Donohue & Associates, Inc.
Engineering Contractor	V3 Construction Group, Ltd.
Estimated Construction Cost	\$19,841,500
Contract Award Date	July 2024
Substantial Completion Date	January 2026
Project Description	This project is the second phase of the stormwater improvements along Midlothian Creek in Robbins and includes the connection of the diversion channel (Phase I) to the stormwater storage being constructed south of 135th Street, channel improvements on Midlothian Creek, and construction of rain gardens and vegetated swales in a residential area.
Project Justification	This project addresses overland flooding for an estimated 140 acres and protects 92 structures in Robbins.
Project Status	Construction

Flood Control Project in the Worth Woods Subdivision in Worth

Project Number 14-256-5F

Watershed Calumet-Sag Channel

Location Worth, IL

Engineering Consultant Robinson Engineering, Ltd.

Engineering Contractor To be determined

Estimated Construction Cost \$2,500,000

Contract Award Date October 2025

Substantial Completion Date January 2027

Project Description This project will construct a swale and a 24-inch to 72-inch storm sewer in the vicinity of 112th Place and Beloit Avenue, with an outlet to Lucas-Berg Pit in the Village of Worth. The project is in the Calumet-Sag Channel Watershed. The Village of Worth will be responsible for ownership and maintenance of the improvements.

Project Justification This project will reduce flooding for an estimated 19 structures in the Village of Worth.

Project Status Design

Flood Control Project in the Vicinity of 131st Street and Cypress Lane in Palos Heights

Project Number 14-259-5F

Watershed Calumet-Sag Channel

Location Palos Heights, IL

Engineering Consultant Not Applicable

Engineering Contractor Meru Corporation

Estimated Construction Cost \$697,000

Contract Award Date July 2024

Substantial Completion Date April 2025

Project Description This project will involve the demolition of a property at 13040 South Cypress Lane and the installation of a swale at this location, along with the installation of a new downstream storm sewer and an outfall to Navajo Creek.

Project Justification This project will protect three residential properties at risk from a 100-year storm event.

Project Status Construction

Central Park Stormwater Detention Basin and Separate Storm Sewer Improvements in Harvey

Project Number 18-249-AF

Watershed Little Calumet River

Location Harvey, IL

Engineering Consultant HR Green, Inc.

Engineering Contractor To be determined

Estimated Construction Cost \$9,848,774

Contract Award Date June 2025

Substantial Completion Date September 2026

Project Description This project will construct a 23-acre-foot stormwater detention basin along Myrtle Avenue, between 153rd Street and 154th Street on an approximately 20-acre site of the future Central Park in the City of Harvey. Located within the combined sewer area, approximately 9,650 feet of separated storm sewer will be constructed to convey stormwater to the proposed basin and allow discharge into the Wood Street storm sewer system. A 12-inch storm sewer will also be constructed to allow low-flow discharge into the combined sewer system.

Project Justification This project will protect 108 structures from flooding in a 100-year storm event. In addition, the project will reduce flood damages to varying degrees for approximately 582 structures in the vicinity of the project area.

Project Status Design

Groveland Avenue Levee Improvements in Riverside, SSA

Project Number 18-IGA-20

Watershed Lower Des Plaines River

Location Riverside, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$2,506,028

Contract Award Date December 2022

Substantial Completion Date October 2026

Project Description This project is to improve the Groveland Avenue levee, located in the Village of Riverside (Village), by raising the levee with a sheet pile floodwall. A pumping station will be built to drain the land side of the levee. An adjacent street will be raised or protected by additional flood walls. The Village will enter a Project Partnership Agreement with the Army Corps of Engineers as its local sponsor. The District will enter into an intergovernmental agreement with the Village to provide the non-federal share of the design and construction costs.

Project Justification This project increases the level of protection the levee provides to adjacent homes.

Project Status Cost Sharing Agreement

Streambank Stabilization Project along Tinley Creek

Project Number	19-IGA-22
Watershed	Calumet-Sag Channel
Location	Orland Park, IL
Engineering Consultant	Michael Baker International, Inc.
Engineering Contractor	Not applicable
Estimated Construction Cost	\$3,800,000
Contract Award Date	May 2025
Substantial Completion Date	December 2025
Project Description	This project proposes to stabilize banks located along approximately 4,000 linear feet of Tinley Creek in the Village of Orland Park. The work is divided into two locations between 151st Street and Oriole Court and between 86th Avenue and 159th Street. The project will use bioengineering techniques such as geolifts, live stake vegetation, and gentler slopes to stabilize both banks.
Project Justification	This project will protect structures and infrastructure in imminent danger of failure due to active streambank erosion.
Project Status	Negotiation / Evaluation

Flood Control Project on Willow Road at McDonald Creek Tributary A in Prospect Heights, Illinois

Project Number	20-IGA-23
Watershed	Lower Des Plaines River
Location	Prospect Heights, IL
Engineering Consultant	Gewalt Hamilton Associates, Inc.
Engineering Contractor	Not applicable
Estimated Construction Cost	\$1,800,000
Contract Award Date	February 2025
Substantial Completion Date	December 2025
Project Description	This project, in collaboration with the Cook County Department of Transportation and the City of Prospect Heights, raises Willow Road and improves the level of protection for local roads through the installation of new culverts and stormwater storage areas.
Project Justification	This project reduces flooding to ensure access to 60 homes for residents and emergency response vehicles.
Project Status	Negotiation / Evaluation

Acquisition of Flood-Prone Properties Des Plaines Phase IV, NSA

Project Number 20-IGA-24

Watershed Lower Des Plaines River

Location Des Plaines, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$5,000,000

Contract Award Date October 2022

Substantial Completion Date June 2025

Project Description This project is a cost sharing agreement with the City of Des Plaines where 19 flood-prone homes near the Des Plaines River will be purchased.

Project Justification This project is part of an ongoing effort to remove structures and restore open space in flood-prone areas.

Project Status Cost Sharing Agreement

Acquisition of Flood-Prone Properties in Lyons, SSA

Project Number 21-IGA-24

Watershed Lower Des Plaines River

Location Lyons, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$3,000,000

Contract Award Date October 2022

Substantial Completion Date December 2025

Project Description This project is for the acquisition and demolition of up to 25 homes in the floodway and floodplain in the Village of Lyons. The Village will be responsible for demolition and maintaining the property as open space.

Project Justification This project involves the removal of structures from the floodplain to prevent disaster recovery claims from flood insurance. The project will prevent property damage/loss and personal financial burden, as well as enhance floodplain storage.

Project Status Cost Sharing Agreement

Flood Control Project for the Washington Street Area in Blue Island

Project Number 21-IGA-28

Watershed Calumet-Sag Channel

Location Blue Island, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$5,700,000

Contract Award Date November 2025

Substantial Completion Date September 2026

Project Description The project will address flooding in the project area with construction of a new sanitary sewer line and a lift station along Washington Avenue from 119th Place to 121st Street. These proposed sewer improvements, together with additional green infrastructure installations being performed in the project area through partnerships between the District, City of Blue Island, and other funding sources, will address flooding associated with overland flow and basement backups. This project is located in the Calumet-Sag Channel Watershed.

Project Justification This project will eliminate basement backups for 40 residential structures.

Project Status Negotiation / Evaluation

Stormwater Storage at Community High School District 218 Administration Sports Field and Storm Sewer Improvements in Oak Lawn

Project Number 23-IGA-11

Watershed Calumet-Sag Channel

Location Oak Lawn, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$3,500,000

Contract Award Date September 2025

Substantial Completion Date October 2026

Project Description This project is an intergovernmental agreement with the Village of Oak Lawn. The Village of Oak Lawn plans to construct stormwater improvements which include: 1) the construction of an approximate 27.5 acre-feet detention facility within the Community High School District 218's fields and 2) upsizing approximately 6,600 linear feet of storm sewers that discharge to Stony Creek along Kilpatrick Avenue, 105th Street, and Kedvale Avenue.

Project Justification The Stony Creek Study Area, located in the Village of Oak Lawn, experiences riverine and urban flooding during moderate and severe storm events, with an estimated 591 structures impacted by the 100-year storm event. This project will protect over 100 structures from the 100-year storm event through detention and conveyance improvements.

Project Status Negotiation / Evaluation

Roberts Road Drainage Improvements in Palos Hills, Illinois

Project Number 23-IGA-12

Watershed Calumet-Sag Channel

Location Palos Hills, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$3,500,000

Contract Award Date November 2025

Substantial Completion Date July 2026

Project Description This project includes the construction of two 2'x10' box culverts along 101st Street and 78th Avenue and a 60-inch storm sewer along 103rd Street with an 84-inch outfall to the Lucas Diversion Ditch.

Project Justification This project addresses structure and roadway flooding issues along Roberts Road in the City of Palos Hills.

Project Status Negotiation / Evaluation

Springdale Drainage Improvements in Western Springs

Project Number	23-IGA-29
Watershed	Lower Des Plaines River
Location	Western Springs, IL
Engineering Consultant	Engineering Resource Associates, Inc.
Engineering Contractor	Not applicable
Estimated Construction Cost	\$1,000,000
Contract Award Date	November 2024
Substantial Completion Date	October 2025
Project Description	This project is expected to mitigate flooding in the project area, benefiting approximately 20 homes and two local roads by providing adequate drainage to depressional areas of the neighborhood and detention for excess stormwater runoff. The Village will construct a supplemental storm sewer system and storage basin. The Village will be responsible for operations and maintenance of the project.
Project Justification	This project will alleviate flooding within the project area by providing adequate drainage to depressional areas of the neighborhood and detention for excess stormwater runoff.
Project Status	Negotiation / Evaluation

Drainage Improvements in Schiller Park

Project Number	23-IGA-30
Watershed	Lower Des Plaines River
Location	Schiller Park, IL
Engineering Consultant	Not applicable
Engineering Contractor	Not applicable
Estimated Construction Cost	\$1,500,000
Contract Award Date	July 2024
Substantial Completion Date	October 2025
Project Description	This project extends storm sewers along multiple local roads, including Wesley Terrace, Grace Street, Kolze Avenue, and Gremley Avenue, to redirect stormwater from the combined sewer system to an existing storm sewer on Seymour Avenue. The Village of Schiller Park will be responsible for the maintenance and operations of the project.
Project Justification	This project will mitigate flooding in the project area, benefitting approximately 45 residential structures by reducing the demand on the existing combined sewer system.
Project Status	IGA Executed

Craig Manor Drainage System Improvements in Des Plaines

Project Number	23-IGA-33
Watershed	Lower Des Plaines River
Location	Des Plaines, IL
Engineering Consultant	Christopher B. Burke Engineering, Ltd.
Engineering Contractor	Not applicable
Estimated Construction Cost	\$1,000,000
Contract Award Date	July 2024
Substantial Completion Date	March 2025
Project Description	This project will construct drainage system improvements including a new 2.5 acre-feet underground detention facility, relief sewers to convey flow into the detention facility, and outlet storm sewers.
Project Justification	This project will mitigate flooding in the project area through stormwater storage and conveyance improvements, benefitting residential structures and reducing local roadway flooding.
Project Status	Negotiation / Evaluation

Acquisition of Flood-Prone Properties and Construction of Stormwater Storage in Lyons Township

Project Number 23-IGA-43

Watershed Lower Des Plaines River

Location Lyons Township, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$2,500,000

Contract Award Date October 2024

Substantial Completion Date August 2026

Project Description This project will include the acquisition and demolition of flood-prone structures and construction of stormwater storage on the properties.

Project Justification This project will identify up to six properties subject to repetitive flooding for acquisition and construction of stormwater storage.

Project Status Negotiation / Evaluation

Citation Lake Stormwater Improvements in Northfield Township

Project Number	23-IGA-44
Watershed	Lower Des Plaines River
Location	Northfield Township, IL
Engineering Consultant	Not applicable
Engineering Contractor	Not applicable
Estimated Construction Cost	\$3,000,000
Contract Award Date	May 2025
Substantial Completion Date	June 2026

Project Description	This project provides stormwater detention improvements through the installation of stormwater storage vaults under specific sections of the roadway and the installation of new storm sewers to convey the runoff more effectively.
Project Justification	This project will alleviate flooding within the project area through stormwater detention and stormwater conveyance improvements.
Project Status	Negotiation / Evaluation

Green Infrastructure at Chicago Public Schools - Space to Grow Program Phase III

Project Number	24-IGA-02
Watershed	Multiple Watersheds
Location	Chicago, IL
Engineering Consultant	Not applicable
Engineering Contractor	Not applicable
Estimated Construction Cost	\$15,900,000
Contract Award Date	June 2024
Substantial Completion Date	September 2026

Project Description	This project, in partnership with the Chicago Department of Water Management and Chicago Public Schools, will design and construct playgrounds at various Chicago Public Schools using green infrastructure. Chicago Public Schools will be responsible for operations and maintenance.
Project Justification	This project will reduce the current load to the sewer system, alleviate flooding within the project area, and educate students and neighbors about green infrastructure techniques and purpose.
Project Status	IGA Executed

Acquisition of Flood-Prone Properties in Buffalo Grove

Project Number 24-IGA-03

Watershed Lower Des Plaines River

Location Buffalo Grove, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$2,100,000

Contract Award Date September 2024

Substantial Completion Date November 2025

Project Description This project is to purchase seven flood-prone properties in the Village of Buffalo Grove and convert the properties to open space. This is a cost sharing agreement with the Village of Buffalo Grove, in which the Village will be responsible for long-term maintenance. There will be one cost line for Stormwater Flood-Prone Property Acquisition Program.

Project Justification The project will remove seven homes from the floodplain along Buffalo Creek in the Village of Buffalo Grove. The project was selected through the 2023 Flood-Prone Property Acquisition Program.

Project Status Negotiation / Evaluation

Thorn Ditch Flood Mitigation Project in South Holland

Project Number 24-IGA-05

Watershed Little Calumet River

Location South Holland, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$5,860,000

Contract Award Date June 2025

Substantial Completion Date November 2026

Project Description This project will include replacement of existing culverts along Thorn Ditch and construction of stormwater storage at local parks. The Village will be responsible for operations and maintenance of the project.

Project Justification This project will protect residences near Thorn Ditch from flooding through detention and conveyance improvements.

Project Status Negotiation / Evaluation

Public Library Green Roof in Blue Island

Project Number 24-IGA-06

Watershed Calumet-Sag Channel

Location Blue Island, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$306,100

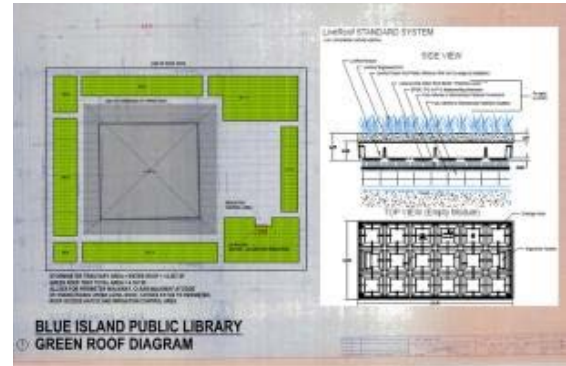

Contract Award Date February 2025

Substantial Completion Date June 2025

Project Description This project involves installing a green roof on the existing Blue Island Public Library. The Public Library will be responsible for operations and maintenance.

Project Justification This project will reduce the current load to the sewer system and alleviate flooding within the project area.

Project Status Negotiation / Evaluation

17th and Lexington Public Parking Lot Improvements in Broadview

Project Number 24-IGA-07

Watershed Lower Des Plaines River

Location Broadview, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$359,500

Contract Award Date May 2025

Substantial Completion Date August 2025

Project Description This project will replace an existing parking lot with permeable pavers. The Village of Broadview will be responsible for operations and maintenance.

Project Justification This project will reduce the current load to the sewer system and alleviate flooding within the project area.

Project Status Negotiation / Evaluation

Green Parking Lot Improvements in Brookfield

Project Number 24-IGA-08

Watershed Lower Des Plaines River

Location Brookfield, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$191,600

Contract Award Date May 2025

Substantial Completion Date August 2025

Project Description This project will replace an impervious parking lot with permeable pavers and will install a rain garden at Brookfield water tower and Maple North Park in Brookfield. The Village of Brookfield will be responsible for operations and maintenance.

Project Justification This project will reduce the current load to the sewer system and alleviate flooding within the project area.

Project Status Negotiation / Evaluation

Green Alley Project 2 in Forest Park

Project Number 24-IGA-09

Watershed Lower Des Plaines River

Location Forest Park, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$313,000

Contract Award Date April 2025

Substantial Completion Date July 2025

Project Description This project will replace an impervious alley with permeable pavers. The Village of Forest Park will be responsible for operations and maintenance.

Project Justification This project will reduce the current load to the sewer system and alleviate flooding within the project area.

Project Status Negotiation / Evaluation

Pacific Avenue and Washington Street Green Infrastructure in Franklin Park

Project Number	24-IGA-10
Watershed	Lower Des Plaines River
Location	Franklin Park, IL
Engineering Consultant	Not applicable
Engineering Contractor	Not applicable
Estimated Construction Cost	\$214,200
Contract Award Date	June 2025
Substantial Completion Date	September 2025
Project Description	This project will install several rain gardens and green islands along Pacific Avenue and Washington Street. The Village of Franklin Park will be responsible for operations and maintenance.
Project Justification	This project will reduce the current load to the sewer system and alleviate flooding within the project area.
Project Status	Negotiation / Evaluation

Village Hall Green Parking Lot in Hoffman Estates

Project Number 24-IGA-12

Watershed Poplar Creek

Location Hoffman Estates, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$472,000

Contract Award Date April 2025

Substantial Completion Date July 2025

Project Description This project will install bioswales and replace impervious parking spaces with permeable pavers at the Village Hall parking lot. The Village of Hoffman Estates will be responsible for operations and maintenance.

Project Justification This project will reduce the current load to the sewer system and alleviate flooding within the project area.

Project Status Negotiation / Evaluation

Green Alley Program in Markham

Project Number 24-IGA-13

Watershed Little Calumet River

Location Markham, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$469,000

Contract Award Date May 2025

Substantial Completion Date August 2025

Project Description This project will convert existing impervious alleys to permeable pavers. The City of Markham will be responsible for operations and maintenance.

Project Justification This project will reduce the current load to the sewer system and alleviate flooding within the project area.

Project Status Negotiation / Evaluation

Green Alley Project in North Riverside

Project Number 24-IGA-14

Watershed Lower Des Plaines River

Location North Riverside, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$689,000

Contract Award Date April 2025

Substantial Completion Date July 2025

Project Description This project will replace existing impervious alleys with permeable pavers. The Village of North Riverside will be responsible for operations and maintenance.

Project Justification This project will reduce the current load to the sewer system and alleviate flooding within the project area.

Project Status Negotiation / Evaluation

Public Library Permeable Parking Lot in Northlake

Project Number 24-IGA-15

Watershed Lower Des Plaines River

Location Northlake, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$573,100

Contract Award Date January 2025

Substantial Completion Date April 2025

Project Description This project will replace an impervious parking lot with permeable pavers at Northlake Public Library. The Public Library District will be responsible for operations and maintenance.

Project Justification This project will reduce the current load to the sewer system and alleviate flooding within the project area.

Project Status Negotiation / Evaluation

Town Center Green Infrastructure Improvements in Willow Springs

Project Number 24-IGA-16

Watershed Calumet-Sag Channel

Location Willow Springs, IL

Engineering Consultant Not applicable

Engineering Contractor Not applicable

Estimated Construction Cost \$1,085,000

Contract Award Date February 2025

Substantial Completion Date June 2025

Project Description This project will replace impervious streets with permeable pavers. The Village of Willow Springs will be responsible for operations and maintenance.

Project Justification This project will reduce the current load to the sewer system and alleviate flooding within the project area.

Project Status Negotiation / Evaluation

Green Alley Project in Hillside

Project Number	24-IGA-17
Watershed	Lower Des Plaines River
Location	Hillside, IL
Engineering Consultant	Not applicable
Engineering Contractor	Not applicable
Estimated Construction Cost	\$325,000
Contract Award Date	January 2025
Substantial Completion Date	June 2025
Project Description	This project will replace existing impervious alleys with permeable pavers. The Village of Hillside will be responsible for operations and maintenance.
Project Justification	This project will reduce the current load to the sewer system and alleviate flooding within the project area.
Project Status	Negotiation / Evaluation

LeMoynes Street and Maypole Avenue Underground Storage Projects in Chicago

Project Number	24-IGA-19
Watershed	Combined Sewer/Sanitary and Ship Canal Area
Location	Chicago, IL
Engineering Consultant	Not applicable
Engineering Contractor	Not applicable
Estimated Construction Cost	\$6,000,000
Contract Award Date	January 2025
Substantial Completion Date	September 2025
Project Description	This project will provide excess capacity to the combined sewer system through the use of large box culverts installed underground on half-block sections where other utilities are largely absent.
Project Justification	The culverts will provide flood relief during short, intense rain events.
Project Status	Negotiation / Evaluation

IDOT 55th Street Relief Sewer - West Phase II in Countryside

Project Number	24-IGA-21	
Watershed	Lower Des Plaines River	
Location	Countryside, IL	
Engineering Consultant	Not applicable	
Engineering Contractor	Not applicable	
Estimated Construction Cost	\$1,621,500	
Contract Award Date	January 2025	
Substantial Completion Date	June 2025	
Project Description	This project will construct a 60-inch relief sewer on 55th Street, between La Grange Road and East Avenue.	
Project Justification	This project will provide flood relief benefits to the City of Countryside.	
Project Status	Negotiation / Evaluation	

I-290 Frontage Road Sewer and Outfall in Maywood

Project Number	24-IGA-23
Watershed	Lower Des Plaines River
Location	Maywood, IL
Engineering Consultant	Not applicable
Engineering Contractor	Not applicable
Estimated Construction Cost	\$5,707,000
Contract Award Date	January 2025
Substantial Completion Date	June 2025
Project Description	This project proposes, with IDOT, to construct a new large diameter trunk storm sewer along the I-290 Frontage Road with a dedicated outfall to the Des Plaines River.
Project Justification	This project will reduce flooding on the interstate and provide a new outlet for flood-prone areas of Maywood.
Project Status	Negotiation / Evaluation

Totals		\$ 56,960,231	2025	102	\$ 130,614,100	\$ (903,600)	(0.7)%	
			2024	99	\$ 131,517,700			

- a) Increase is due to an increase in scope of the contract for Program Management of Stormwater Master Planning in Separate Sewer Service Area (\$1,015,000).
- b) Increase is due to the addition of two FTE positions (\$195,800) and the reallocation of salaries to more accurately reflect current activities (\$57,000).
- c) Decrease is due to a shift from some small streams maintenance work being performed by outside contractors to District staff (\$1,865,000), offset by the addition of a contract for mowing services at the reservoirs (\$464,300).
- d) The projects proposed for each year are based on detailed watershed plans identifying flooding problems within each of the six major watersheds. The number of actual projects awarded may not, on face value, qualify performance. There are several factors that could either increase or decrease the number of projects awarded. Some of these facts are project size and complexity, project schedules, intergovernmental agreements' lead times, and unforeseen obstacles. The numbers are provided only as a general indicator of performance.
- e) Increase is due to the inclusion of District-wide Stormwater Management Fund general salary adjustment (\$197,600).
- f) Increase is due to the addition of one FTE position for grant applications (\$78,800) and one FTE position for grant processing (\$41,400).

50000 STORMWATER MANAGEMENT FUND

PERFORMANCE DATA

Program Number	Measurable Activity		2023 Actual	2024 Budgeted	2025 Estimated	
4310	Stormwater Management Planning					
4311	Watershed Councils	Cost	\$ 42,136	\$ 47,700	\$ 48,600	
4313	Watershed Plan Development	Cost	\$ 274,926	\$ 300,000	\$ 1,315,000	a)
4314	Publications and Public Information	Cost	\$ 24,380	\$ 28,000	\$ 2,500	b)
4315	Geographic Information System	Cost	\$ 43,658	\$ 48,300	\$ 50,100	
4320	Stormwater Management Regulation					
4321	Permits	Cost	\$ 2,129,710	\$ 2,572,300	\$ 2,718,900	
4322	Watershed Management Ordinance Development	Cost	\$ 255,679	\$ 278,000	\$ 289,300	
4323	Inspections	Cost	\$ 1,538,950	\$ 1,611,200	\$ 1,717,600	
4324	Watershed Management Ordinance Administration	Cost	\$ 238,556	\$ 277,100	\$ 318,400	
4326	Watershed Management Ordinance Infiltration/Inflow Control Program	Cost	\$ 193,348	\$ 204,900	\$ 208,100	
4330	Operations & Maintenance					
4331	Stormwater Detention Reservoir Activity	Cost	\$ 1,413,748	\$ 1,457,100	\$ 1,584,400	
4332	Small Streams Maintenance	Cost	\$ 2,803,416	\$ 5,374,100	\$ 3,698,500	c)
	Debris Cubic Yards Removed		17,713	23,000	23,000	
	Cost per Cubic Yard		\$ 158.27	\$ 233.66	\$ 160.80	c)
4334	Operations & Maintenance Contracted with Other Governments	Cost	\$ 185,656	\$ 186,200	\$ 189,000	
4335	Waterways Debris Removal	Cost	\$ 735,954	\$ 770,000	\$ 852,200	
a) Increase is due to an increase in scope of the contract for Program Management of Stormwater Master Planning in Separate Sewer Service Area (\$1,015,000). b) Decrease is due to the reallocation of salaries to more accurately reflect current activities (\$24,400). c) Decrease is due to a shift from some small streams maintenance work being performed by outside contractors to District staff (\$1,865,000), and the decrease in the number of crew cab truck purchases (\$349,200), offset by the addition of a contract for mowing services at the reservoirs (\$464,300).

7701	Grant/Loan Applications	Cost	\$ —	\$ —	\$ 78,800	g)
7703	Grant/Loan Processing	Cost	\$ —	\$ —	\$ 41,400	h)
Totals			\$ 56,960,231	\$ 131,517,700	\$ 130,614,100	

- d) The projects proposed for each year are based on detailed watershed plans identifying flooding problems within each of the six major watersheds. The number of actual projects awarded may not, on face value, qualify performance. There are several factors that could either increase or decrease the number of projects awarded. Some of these facts are project size and complexity, project schedules, intergovernmental agreements' lead times, and unforeseen obstacles. The numbers are provided only as a general indicator of performance.
- e) Increase is due to land acquisition and easements for the Flood Control Project on Central Road in Des Plaines (\$5,900,000), the increase in special counsel and other legal services (\$100,000), and increases in legal services for land acquisition in Addison Creek (\$80,000) and in Midlothian Creek (\$65,900), offset by the decrease in general right-of-way properties for stormwater projects (\$900,000) and the decrease in legal services for land acquisition in Central Park, Harvey (\$100,000).
- f) Increase is due to the inclusion of District-wide Stormwater Management Fund general salary adjustment (\$197,600).
- g) Increase is due to the addition of one FTE position for grant applications (\$78,800).
- h) Increase is due to the addition of one FTE position for grant processing (\$41,400).

Salary ranges corresponding to the pay plan and grade for each class title can be found in the table of Salary Schedules in the Appendix. Dollar amounts may not add up due to rounding.

SECTION VII

OTHER FUNDS

Other funds included in the annual District Budget are: the Reserve Claim Fund, Bond Redemption & Interest Fund, Retirement Fund, Corporate Working Cash Fund, Construction Working Cash Fund, and Stormwater Working Cash Fund.

The Reserve Claim Fund is used to accumulate resources for the payment of claims and judgments against the District, as well as for emergency repair or replacement of District facilities. A narrative description of the purpose and operation of this fund is contained in this section along with an appropriation schedule. A tax levy ordinance for this fund is presented in Section VIII of this Budget.

The Bond Redemption & Interest Fund is used to accumulate the proceeds from property taxes and investment income, which are set aside to pay the principal and interest on the outstanding bond issues of the District. These funds are segregated and accounted for by each bond issue. A narrative description of this fund and an appropriation schedule, detailing payment of principal and interest during 2025, are included in this section. A tax levy ordinance for the principal and interest due in 2025 and 2026 from the Bond Redemption & Interest Fund is included in Section VIII of this Budget. Statements of Outstanding Bonds and Estimated Statutory Debt Margin, with a graphic illustration of past, current, and estimated future debt service, are included in the Budget and Financial Summaries, Schedules, and Exhibits section, starting on page 48.

The Retirement Fund is the pension plan for District employees, accounted for in a trust fund the Illinois Compiled Statutes established as a legal entity separate and distinct from the District. This section contains an appropriation of taxes the District received on behalf of the Retirement Fund. A tax levy ordinance for this fund is presented in Section VIII of this Budget.

The District utilizes Corporate, Construction, and Stormwater Working Cash Funds, as authorized by Illinois Compiled Statutes, to make temporary loans to the Corporate, Construction, and Stormwater Management Funds. Loans are repaid to the Working Cash Funds from the tax levies of the funds. The use of Working Cash Funds eliminates the need to issue short-term financing. There will be no tax levies for the Corporate, Construction, or Stormwater Working Cash Funds in 2025.

Reserve Claim Fund:

Retirement Fund:

Description of Fund, Purpose, and Operation	527
Appropriation Ordinance (continued)	530

RESERVE CLAIM FUND

Description of Fund, Purpose, and Operation

The Reserve Claim Fund is the District’s self-insurance fund. It is maintained at an appropriation level adequate to meet potential liabilities. The fund is capable of providing coverage for those risks that can be expected to be encountered and is able to pay such claims without exposing the agency to financial risk that could curtail normal operations of protecting the public health, safety, and welfare.

A property tax levy limited by law at 0.5 cents per \$100 of equalized assessed valuation (EAV) provides funds for this purpose. The accumulation of funds, per Illinois State Statute, is not to exceed 0.05 percent of the EAV, or approximately \$97.8 million. Resources are accumulated in this fund to the extent that revenue from the annual tax levy and investment income on the fund balance is reduced by the payment of claims.

The policy, set by the Board of Commissioners, is to accumulate a reserve fund balance towards the statutory limit and to levy at the statutory tax rate limit. This policy is similar in function to insurance reserves. The estimated 2024 year-end fund balance is \$48.4 million and the projection for 2025 is \$52.3 million.

The Statutory Limit for Budget Year 2025
Proj. is \$97.8 million.

Description of Fund, Purpose, and Operation (continued)

The appropriation for the Reserve Claim Fund is not designed to be spent during any one budget year. The available fund balance plus new revenue to be received must be appropriated each year to authorize the District to fund emergencies and to settle large claims or lawsuits. Designation is also provided for accounts payable and other contingent liabilities. For 2025, accounts payable and other liabilities are estimated at \$1.2 million. The designation for liabilities is reviewed and adjusted on an annual basis.

The fund is appropriated in two line items, Account 601090 (Employee Claims) and Account 667220 (General Claims and Emergency Repair and Replacement Costs). Account 601090 is for the payment of workers' compensation and other District employee claims, while Account 667220 is used to pay general claims or judgments against the District, as well as emergency repairs or replacements of District facilities. District staff makes considerable efforts to control claim expenditures by implementing aggressive safety training programs and returning employees to work as soon as possible.

BOND REDEMPTION & INTEREST FUND

Description of Fund, Purpose, and Operation

The District's Bond Redemption & Interest Fund is a debt service fund established to account for annual property tax levies and certain other revenues, principally interest on investments, which are used for the payment of interest and redemption of general obligation bond issues. Sub-funds are established for each debt issue. The 2025 appropriation for bond redemption and interest payments is \$234,620,974.

Debt Limits, Margins, and Borrowing Authority

Applicable Illinois State Statutes establish the following limitations relative to the District:

- General Obligation Notes may be issued at an amount not to exceed 85 percent of the current General Corporate Fund tax levy.
- The District may fund up to 100 percent of the aggregate total of the estimated amount of taxes levied or to be levied for corporate purposes plus the General Corporate Fund portion of the personal property replacement tax allocation certified for distribution during the budget year, through borrowing from the Corporate Working Cash Fund and the issuance of tax anticipation notes or warrants.
- The District's debt may not exceed 5.75 percent of the last published equalized assessed valuation (EAV) of taxable real property (\$195.7 billion for 2023) within the District boundary. On December 31, 2024, the District's statutory debt limit is estimated at \$11.3 billion, with a net applicable debt of \$2.4 billion and an estimated statutory debt margin of approximately \$8.9 billion.

Net Debt and Statutory Debt Margin

- The amount of non-referendum Capital Improvements Bonds which may be outstanding may not exceed 3.35 percent of the last-known EAV of taxable real property within the District boundary. On December 31, 2024, it is estimated that the District's outstanding capital improvement and refunding bonds will total \$1.6 billion with a non-referendum statutory debt limit of \$6.6 billion and a non-referendum bonded debt margin of \$4.9 billion.
- The Illinois Compiled Statutes provide authorization for the funding of the District's Capital Improvement Program by the issuance of non-referendum Capital Improvements Bonds through the year 2034, as extended, effective January 1, 2020. Bonds may be issued during any one budget year in an amount not to exceed \$150.0 million plus the amounts of any bonds authorized and unissued during the three preceding budget years. This amount was increased from \$100.0 million during 2003 as the result of Public Act 93-0279. The extension of non-referendum bonding authority is a significant change that accommodates funding of the capital program as planned. Build America Bonds were issued in the amount of \$600.0 million in August 2009, and were exempted from the non-referendum authority by statute.
- Under the Tax Cap laws, "limited bonds" can be issued to the extent that the total debt service requirements of any new debt, when combined with existing debt service, does not exceed the debt service extension base established by the Act. The debt service extension limitation for the District, related to the 2024 tax year, is \$200.1 million.

Description of Fund, Purpose, and Operation (continued)

Non-Referendum Debt Limit and Margin

- 1997 legislation expanded the “limited bond” authority for the District. Public Act 90-0485 excludes debt associated with the Tunnel and Reservoir Plan program from the limitations imposed by prior Tax Cap legislation.
- Public Act 96-0501 allows for an annual increase in this debt service extension limitation base by the lesser of five percent or the percentage increase in the Consumer Price Index beginning with the 2009 levy.

BOND REDEMPTION & INTEREST FUND

Description of Fund, Purpose, and Operation (continued)

Current and Future Bond Debt Service

The exhibit below reflects the current debt service obligation of the District. Bond sale proceeds provide partial financing for the ongoing new construction and rehabilitation program of the District. As current State Revolving Fund loans are converted to bonds, additional annual debt service will be added. These amounts will be in the range of \$6.0 to \$10.0 million per year.

The debt for future bond sales is not included in this exhibit. Future bond sales are based on estimated cash flow requirements of the Capital Improvements Bond Fund new construction and rehabilitation program. The estimates for total debt service assuming future bond sales are included in the Five-Year Financial Forecast in [Section II](#), Budget and Financial Summaries, Schedules, and Exhibits, of this budget document.

**District General Obligation Bonded Debt Service
(Includes IEPA Debt)**

RETIREMENT FUND

Description of Fund, Purpose, and Operation

The Metropolitan Water Reclamation District Retirement Fund (Fund) is a defined benefit public employee retirement system that provides retirement, survivor, and disability benefits to the employees of the Metropolitan Water Reclamation District of Greater Chicago in accordance with Chapter 40, Act 5, Articles 1, 13, and 20 of the Illinois Compiled Statutes. The primary goal of the Fund is to provide required benefits to the members while preserving the fiscal integrity and financial stability of the Fund.

On August 3, 2012, the Governor signed Public Act 97-0894, which increased the nine percent required employee contributions by one percent per year for three years beginning in 2013, to the current contribution of 12 percent for employees who first became a member of the Fund or certain reciprocal systems before January 1, 2011 (Tier I).

In 2014, the District's Board of Commissioners adopted a Funding Policy that incorporated a funding goal that will achieve a 100 percent funding ratio by the year 2050. Currently, the required employer contribution is based on the actuarially determined contribution required to achieve the District's funding goal but not to exceed an amount equal to employee contributions two years prior multiplied by 4.19.

On April 22, 2022, the Governor signed Public Act 102-0707 allowing the District to issue up to \$600.0 million of Pension Obligation Bonds, the authorization has no sunset date, and the unlimited tax bonds would be excepted from debt service extension base limitations.

The 2024 appropriation included an equity transfer of \$31.5 million to the Retirement Fund to provide advance funding to maintain growth in the Retirement Fund's funded ratio, as well as \$11.3 million from the 2022 Property Tax Levy Adjustment Public Act 102-0519. Similarly, the 2025 appropriation includes an anticipated \$21.6 million transfer of excess revenue from the Corporate Fund and \$8.4 million from the 2023 Property Tax Levy Adjustment Public Act 102-0519.

For the 2025 Budget, the gross property tax levy totals \$74.4 million, an increase of \$1.7 million, or 2.3 percent, above the 2024 adjusted levy. The 2025 Personal Property Replacement Tax allocation to the Retirement Fund is \$19.0 million. The 2025 appropriation is \$118.7 million, a decrease of \$10.5 million, or 8.1 percent, below the 2024 Adjusted Budget.

As of December 31, 2023, the Fund had 1,771 active (contributing) participants, 1,887 employee annuitants, 549 spouse annuitants, and 16 child annuitants. In addition, the Fund had 33 District employees receiving disability benefits at the end of the year.

Active Participants

Beneficiaries

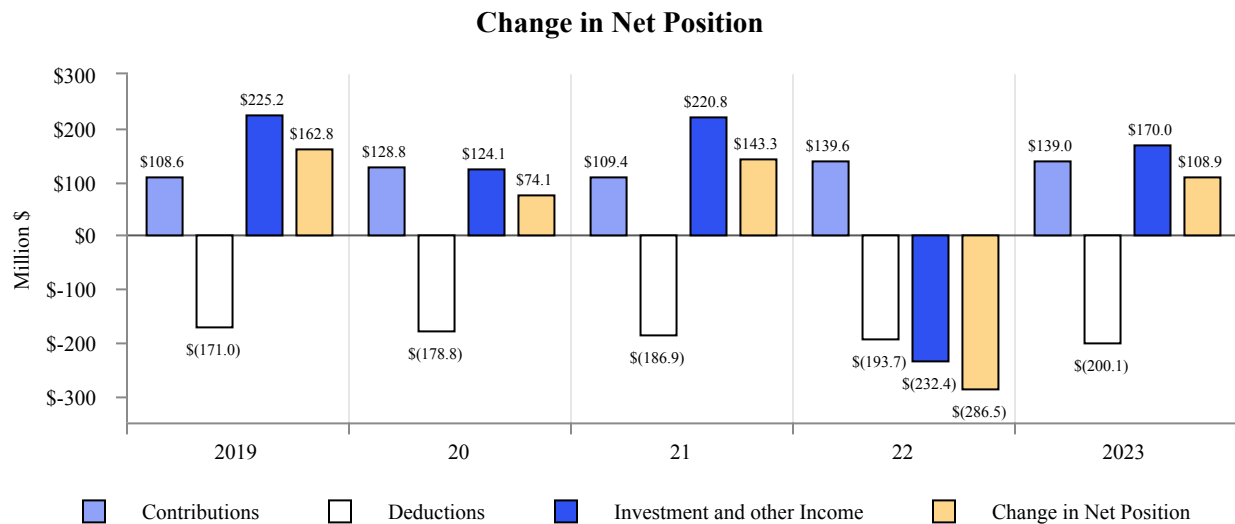

Description of Fund, Purpose, and Operation (continued)

Additions to the Fund are from the following sources:

- Employee contributions - Beginning in 2015, (Tier I) employees contribute 12 percent of salary to the Fund. Employees hired on or after January 1, 2011 (Tier II) contribute nine percent of salary.
- Employer contributions - Includes real estate property tax levies and the Personal Property Replacement Tax. In 2025, the District will levy a tax which will produce a sum that will be sufficient to meet the funding goals of the District's Funding Policy.
- Net investment income - Includes dividends and interest, as well as realized and unrealized appreciation (depreciation) in the fair value of the investments, less investment expense.

Total additions for 2023 were \$309.0 million, or \$401.8 million greater than in 2022, primarily due to a rebound in investment markets during the year. Additions in 2023 were the combined effect of employee and employer contributions of \$139.0 million, investment income of \$169.9 million, securities lending income of \$101,000, and other income of \$2,300.

Deductions for 2023 were \$200.1 million, which included annuity payments of \$194.3 million, refunds of \$1.9 million, administrative expenses of \$3.0 million, and disability benefits of \$0.9 million.

Description of Fund, Purpose, and Operation (continued)

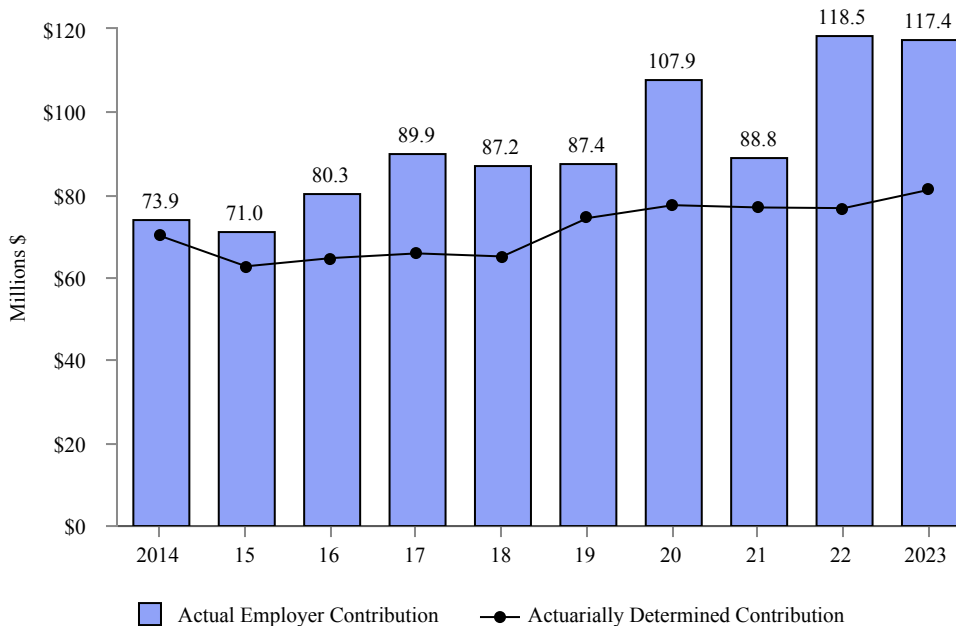

As of December 31, 2023, the funded ratio of the Fund was 55.5 percent utilizing the Actuarial Asset Value required by the Governmental Accounting Standards Board, which is a decrease from 57.8 percent as of December 31, 2022. The decrease in funded ratio is primarily due to a reduction in the assumed investment rate of return and the smoothing of losses from 2022. The funded ratio has been in the range of 55.0 percent to 58.7 percent over the last ten years.

Funded Ratio at Actuarial Value

The 2024 actuarially determined contribution is \$94.4 million. The 2025 total appropriation is \$118.7 million, which includes a \$21.6 million transfer of excess revenue from the Corporate Fund, \$8.4 million from the 2023 Property Tax Levy Adjustment Public Act 102-0519, and \$88.7 million in the expected employer contribution.

funds, for the payment thereof when said bills or contractual liabilities have been found to be valid and legal obligations against the Metropolitan Water Reclamation District of Greater Chicago and when properly vouchered and audited by the Department of Finance, or when any project or purpose is approved and authorized by the Board of Commissioners of the Metropolitan Water Reclamation District of Greater Chicago, as the case may be.

Section 10. This ordinance shall take effect January 1, 2025.

Approved:

*President,
Board of Commissioners of the
Metropolitan Water Reclamation District
of Greater Chicago*

SECTION VIII

TAX LEVY ORDINANCES

The Tax Levy Ordinances are the means by which tax levies, enacted by the Board of Commissioners under authority of the Illinois Compiled Statutes, are given legal effect.

Each tax levy states the revenue which is to be raised, through the collection of property taxes, to finance the operations of a specific fund. The gross tax levy, which allows for loss in collection, is presented with the amount of estimated loss, where applicable. A factor of 3.5 percent for loss in collection is used for 2025 levies.

This section includes 2025 Tax Levy Ordinances for the Retirement Fund, Corporate Fund, Construction Fund, Reserve Claim Fund, and Stormwater Management Fund. A Tax Levy Ordinance, to pay the interest on outstanding bonds and to discharge the principal thereof, along with a detailed schedule of the 2025 Tax Levy for Payment of Outstanding Bonds, can also be found in this section.

FOR THE CONSTRUCTION FUND**

BE IT ORDAINED by the Board of Commissioners of the Metropolitan Water Reclamation District of Greater Chicago:

Section 1. That there be and is hereby levied upon all taxable property within the territorial limits of the Metropolitan Water Reclamation District of Greater Chicago, as said territorial limits exist on January 1, 2025, for the fiscal year ending December 31, 2025, to provide revenue for the replacement, remodeling, completion, alteration, construction, and enlargement, including alterations, enlargements and replacements which will add appreciably to the value, utility, or the useful life of sewage treatment works, administrative buildings, flood control facilities, or water quality improvement projects, and additions therefor, pumping stations, tunnels, conduits and intercepting sewers connecting therewith, and outlet sewers together with the equipment and appurtenances necessary thereto, and for the acquisition of the sites and rights of way necessary thereto, and for engineering expenses for designing and supervising the construction of the works above described, "the sum of \$7,000,000 which includes the sum of \$245,000 as a reserve for loss in collection of taxes."

Section 2. That the Clerk of the Metropolitan Water Reclamation District of Greater Chicago be, and is hereby directed to certify to the County Clerk of Cook County, the amount above set forth to be raised by taxation in the year

2025 and to file a certified copy of the Ordinance with the said County Clerk of Cook County, and said County Clerk of Cook County aforesaid, is hereby directed to cause the aforesaid amount of money to be extended upon and against the taxable property within the territorial limits of the Metropolitan Water Reclamation District of Greater Chicago, as said territorial limits exist on January 1, 2025, all in accordance with the laws and statutes of the State of Illinois in such case made and provided, and subject to reduction as provided in the text below, and the Clerk of the Metropolitan Water Reclamation District of Greater Chicago is hereby directed to cause this Ordinance to be published at least once in a newspaper published within the territorial limits of the Metropolitan Water Reclamation District of Greater Chicago and to incur the necessary expenses therefor.

Section 3. That said County Clerk of Cook County, as tax extension officer for said District, is hereby directed to *reduce this levy of taxes* by the District for the year 2025 by the amount necessary to enable said District's aggregate tax levies to comply with the Property Tax Extension Limitation Law; that is, the entire reduction in the aggregate of all tax levies for said District for the year 2025 required by said Law shall be taken against the Construction Fund levy as set forth in this Ordinance.

Section 4. This Ordinance shall take effect January 1, 2025.

ORDINANCE NUMBER O24-012

**FOR THE LEVY OF TAXES FOR THE FISCAL YEAR BEGINNING
 JANUARY 1, 2025 AND ENDING DECEMBER 31, 2025
 UPON ALL TAXABLE PROPERTY WITHIN THE TERRITORIAL LIMITS OF
 THE METROPOLITAN WATER RECLAMATION DISTRICT OF GREATER CHICAGO
 AS SAID TERRITORIAL LIMITS EXIST ON JANUARY 1, 2025
 FOR THE PURPOSE OF PROVIDING REVENUES
 FOR THE RESERVE CLAIM FUND**

BE IT ORDAINED by the Board of Commissioners of the Metropolitan Water Reclamation District of Greater Chicago:

Section 1. That there is hereby levied the sum of \$7,500,000 upon all taxable property within the territorial limits of the Metropolitan Water Reclamation District of Greater Chicago as said territorial limits exist on January 1, 2025, for the fiscal year ending December 31, 2025, for the purpose of providing revenues for establishing and maintaining a reserve fund for the payment of claims, awards, losses, judgments, liabilities, settlements, or demands, and associated attorney’s fees and costs that might be imposed on or incurred by such sanitary district in matters including, but not limited to, the Workers’ Compensation Act or the Workers’ Occupational Diseases Act, any claim in tort, any claim of deprivation of any constitutional or statutory right or protection, for all expenses, fees, and costs, both direct and in support of any property owned by such sanitary district which is damaged by fire, flood, explosion, vandalism or any other peril, natural or manmade.

Section 2. That the Clerk of the Metropolitan Water Reclamation District of Greater Chicago be, and is hereby directed to certify to the County Clerk of Cook County, the amount above set forth to be raised by taxation in the year 2025 and to file a certified copy of the Ordinance with the said County Clerk of Cook County and said County Clerk of Cook County aforesaid, is hereby directed to cause the aforesaid amount of money to be extended upon and against the taxable property within the territorial limits of the Metropolitan Water Reclamation District of Greater Chicago, as said territorial limits exist on January 1, 2025, all in accordance with the laws and statutes of the State of Illinois in such case made and provided, and the Clerk of the Metropolitan Water Reclamation District of Greater Chicago is hereby directed to cause this Ordinance to be published at least once in a newspaper published within the territorial limits of the Metropolitan Water Reclamation District of Greater Chicago and to incur the necessary expenses therefor.

Section 3. This Ordinance shall take effect January 1, 2025.

COMPENSATION PLAN NARRATIVE

In accordance with Illinois State Statute, Chapter 70, Section 2605b/4.2, a Department of Human Resources for the District was created, the executive officer of which is the Director of Human Resources. The Director shall, with the consent and approval of the Civil Service Board of the District, classify all non-exempt and non-represented positions in the District for the purpose of establishing pay grades.

For establishing uniformity of pay and title for positions, the Director prescribes the minimum and maximum pay for each grade and title.

While maintaining internal balance as established by the relative evaluation of classes, the compensation for non-represented and non-exempt positions shall be at least equal to the median compensation provided by other employers for similar work in the Metropolitan Chicago labor market or other appropriate labor market. Compensation for non-represented positions is defined in the Salary Schedule for Technical, Administrative, and Managerial (HP) Employees.

Salary advancement within salary ranges for non-represented positions and certain exempt positions is provided to recognize growth in the job, and the rate of advance shall be based primarily upon the quality of performance. Salary advancement stages are defined as “steps” within the salary schedules for each grade of position.

Employees in positions covered by collective bargaining agreements shall be compensated based on negotiations between unions representing such employees and the management of the District. The rates paid to all such employees shall be adjusted in accordance with changes caused by the duly prescribed negotiations, provided that any change in rates may be made applicable at the beginning of the next budget year following the date of change in the rate, in the event necessary funds are not available. Compensation for these positions is defined in the Salary Schedule for Labor Trades (LT) Employees.

Compensation for exempt positions is established by the Board of Commissioners, except for their own compensation, which is established by Illinois Compiled Statutes. Compensation for exempt positions is defined in the Salary Schedule for Exempt (EX) Employees.

The Position Analysis for each Department shows the Pay Plan and Grade for each budgeted position. The Salary Schedules above display the salary ranges associated with each Pay Plan and Grade. For example, in Section 681 of the General Division of the Maintenance & Operations Department, the Principal Mechanical Engineer position is associated with the HP (Technical, Administrative, and Managerial) Pay Plan at Grade 18. By looking up HP18 in the second table above, the salary range for this or any other title at that Pay Plan and Grade is \$4,855.38 to \$7,020.83 bi-weekly. By multiplying those rates by 26, it can be determined that the annual salary range for such positions is \$126,239.88 to \$182,541.58. For the HP and some EX Pay Plans, the actual salary earned in a position is dependent on the "step" of the incumbent occupying the position. Where applicable, there are nine steps in each Pay Plan and Grade. The step level of an incumbent is determined by a combination of the incumbent's longevity in the title and at the District. Incumbents with the greatest longevity factors will be at the highest steps, assuming satisfactory job performance.

USER CHARGE RATES

Year	Large Commercial/Industrial Users				Tax-Exempt Users				Revenues in \$ millions
	Flow per million gallons	BOD ₅ per 1,000 pounds	SS per 1,000 pounds	OM&R Factor	Flow per million gallons	BOD ₅ per 1,000 pounds	SS per 1,000 pounds

* 2025 numbers are pending.

BOD₅ Biochemical Oxygen Demand based on standard five-day test

SS Suspended Solids

OM&R Portion of real estate taxes credited to users for the District's Operations, Maintenance, and Replacement costs

User charges are calculated based on sewer discharge volumes and representative sampling of the discharge for concentrations of BOD₅ and suspended solids. Loadings in thousands of pounds annually are extrapolated from the volume and concentration measurements, with the rates listed above applied. Users are given a credit for real estate taxes paid to the District multiplied by the OM&R factor. Users owing more than \$12,000 annually pay quarterly estimates.

PROPERTY TAX LEVIES AND COLLECTIONS

(in thousands of dollars)

Fiscal Year Ended Dec. 31	Taxes Levied for the Fiscal Year	Collected within the First Year		
		Amount	Percentage of Levy	Final Due Date
2023	\$ 668,457	\$ —	— %	*

* Final due date for 2023 tax levies is not available.

NOTE: The source for Property Tax Levies and Collection is the Annual Comprehensive Financial Report of the Metropolitan Water Reclamation District of Greater Chicago for the Year Ended December 31, 2023.

PROPERTY TAX BASE

The Metropolitan Water Reclamation District of Greater Chicago receives the majority of its income from local real estate taxes. Taxes are collected by the Cook County Treasurer based on property values established by the Cook County Assessor. North, South and City of Chicago townships are reassessed on a three-year rotation.

The underlying county township map is derived from the Illinois Secretary of State Archives:
<https://www.ilsos.gov/departments/archives/IRAD/cook.html>

AWARDS AND ACHIEVEMENTS RECOGNITION FOR THE FIVE-YEAR PERIOD, 2024-2020

Algae Biomass Organization	2020	<i>Innovation Collaboration of the Year Award</i>
American Public Works Association	2023	<i>Chicago Metro Chapter Suburban Branch: Public Works Project of the Year Award for Mount Prospect's Levee 37 Interior Drainage Stormwater Improvement Project and Skokie's Green Alleys Program</i> <i>Chicago Metro Chapter Southwest Branch: Public Works Project of the Year Award for the Flossmoor Berry Lane Stormwater Improvement Project</i>
American Society of Civil Engineers - Illinois Section	2024	<i>Outstanding Engineering Achievement Award in the \$25 million to \$100 million category for the Addison Creek Reservoir in Bellwood, Illinois</i>
	2023	<i>Outstanding Engineering Achievement Award in the \$10 million to \$25 million category for the Golf Mill Park Stormwater Mitigation Project in Nilus, Illinois</i>
	2022	<i>Sustainability in Civil Engineering Achievement Award for the Buffalo Creek Reservoir Expansion Project</i>
Chicago Metropolitan Agency For Planning (CMAP)	2021	<i>CMAP Regional Excellence Award in the category of Regional Resilience: Buffalo Creek Reservoir</i>
Friends of the Chicago River	2022	<i>Chicago River Blue Award for work on the Natalie Creek Flood Control Project</i>
Funders Network	2020	<i>Partners for Places Award for Space To Grow: Greening Chicago Schoolyards</i>
Government Finance Officers Association of the United States and Canada	2024-2020	<i>Budget document recognized for Distinguished Budget Presentation</i>
	2023-2020	<i>Certificate of Achievement for Excellence in Financial Reporting for the MWRD Retiree Health Care Trust - Annual Comprehensive Financial Report for Fiscal Years 2020 through 2023</i> <i>Certificate of Achievement for Excellence in Financial Reporting - Annual Comprehensive Financial Report for Fiscal Years 2020 through 2023</i> <i>Certificate of Achievement for Excellence in Financial Reporting for the MWRD Retirement Fund - Annual Comprehensive Financial Report for Fiscal Years 2020 through 2023</i>
Illinois Association for Floodplain and Stormwater Management	2021	<i>Stormwater Management Award</i>
Illinois Employer Support of the Guard and Reserve	2021	<i>Nomination for the Secretary of Defense Freedom Award</i>
Illinois Water Environment Association	2022	<i>Kari K. Steele, President, is the recipient of the Public Official of the Year award. The Public Official of the Year award is presented to an elected or appointed public official that has made a documented significant contribution in the areas of clean water legislation, public policy, government service, or another area of public prominence that resulted in improvements to the water environment</i>
International Water Association	2024	<i>Climate Smart Utilities Recognition Award, Most Inspiring Achiever Category</i>
Lesbian, Gay, Bisexual, and/or Transgender Chamber of Commerce	2021	<i>Supplier Diversity Advocate of the Year</i>
National Association of Clean Water Agencies (NACWA), formerly known as Association of Metropolitan Sewerage Agencies	2023	<i>Excellence in Management Platinum Recognition Award</i> <i>NACWA Award for Compliance with National Pollutant Discharge Elimination System, Platinum Award for 27 consecutive years of full compliance for Lemont Water Reclamation Plant; Platinum Award for 19 consecutive years of full compliance for James C. Kirie Water Reclamation Plant; Platinum Award for 18 consecutive years of full compliance for Terrence J. O'Brien Water Reclamation Plant; Platinum Award for 16 consecutive years of full compliance for Hanover Park Water Reclamation Plant; and Platinum Award for 10 consecutive years of full compliance for John E. Egan Water Reclamation Plant</i> <i>NACWA Award for Compliance with National Pollutant Discharge Elimination System, Gold Award for Stickney Water Reclamation Plant</i> <i>NACWA Award for Compliance with National Pollutant Discharge Elimination System, Silver Award for Calumet Water Reclamation Plant</i>
	2022	<i>National Environmental Achievement Award for Public Information and Education Video for "Where Does IT Go?" animation</i> <i>NACWA Award for Compliance with National Pollutant Discharge Elimination System, Platinum Award for 31 consecutive years of full compliance for Calumet Water Reclamation Plant; Platinum Award for 26 consecutive years of full compliance for Lemont Water Reclamation Plant; Platinum Award for 18 consecutive years of full compliance for James C. Kirie Water Reclamation Plant; Platinum Award for 17 consecutive years of full compliance for Terrence J. O'Brien Water Reclamation Plant; Platinum Award for 15 consecutive years of full compliance for Hanover Park Water Reclamation Plant; and Platinum Award for nine consecutive years of full compliance for John E. Egan Water Reclamation Plant</i>

AWARDS AND ACHIEVEMENTS RECOGNITION FOR THE FIVE-YEAR PERIOD, 2024-2020

National Association of Clean Water Agencies (NACWA), formerly known as Association of Metropolitan Sewerage Agencies (continued)	2022	<i>NACWA Award for Compliance with National Pollutant Discharge Elimination System, Gold Award for Stickney Water Reclamation Plant</i>
	2021	<i>NACWA Award for Compliance with National Pollutant Discharge Elimination System, Platinum Award for 30 consecutive years of full compliance for Calumet Water Reclamation Plant; Platinum Award for 25 consecutive years of full compliance for Lemont Water Reclamation Plant; Platinum Award for 17 consecutive years of full compliance for James C. Kirie Water Reclamation Plant; Platinum Award for 16 consecutive years of full compliance for Terrence J. O'Brien Water Reclamation Plant; Platinum Award for 14 consecutive years of full compliance for Hanover Park Water Reclamation Plant; and Platinum Award for eight consecutive years of full compliance for John E. Egan Water Reclamation Plant</i>
	2020	<i>NACWA Award for Compliance with National Pollutant Discharge Elimination System, Gold Award for Stickney Water Reclamation Plant</i> <i>NACWA Award for Compliance with National Pollutant Discharge Elimination System, Platinum Award for 29 consecutive years of full compliance for Calumet Water Reclamation Plant; Platinum Award for 24 consecutive years of full compliance for Lemont Water Reclamation Plant; Platinum Award for 16 consecutive years of full compliance for James C. Kirie Water Reclamation Plant; Platinum Award for 15 consecutive years of full compliance for Terrence J. O'Brien Water Reclamation Plant; Platinum Award for 13 consecutive years of full compliance for Hanover Park Water Reclamation Plant; and Platinum Award for seven consecutive years of full compliance for John E. Egan Water Reclamation Plant</i> <i>NACWA Award for Compliance with National Pollutant Discharge Elimination System, Gold Award for Stickney Water Reclamation Plant</i>
National Institute of Governmental Purchasing	2024-2021	<i>Quality Public Procurement Department (QPPD) Accreditation (formerly known as "Outstanding Agency Accreditation Award." Accreditation certification is valid for three years from the day of award)</i>
Peoples Gas	2022	<i>Energy Efficiency Award for the heat exchanger installation and boiler removal project at the Calumet Water Reclamation Plant</i>
United States Patent and Trademark Office	2023	<i>United States Patent on Systems and Methods for Reducing Total Dissolved Solids (TDS) in Wastewater by an Algal Biofilm Treatment. Joint Patent issued to the Iowa State University Research Foundation Inc., Ames, Iowa and the Metropolitan Water Reclamation District of Greater Chicago</i>
	2020	<i>Patent for Production of Carbon-Based Compounds from Cellulosic Feedstock Fermentation; Application Number 62/965,592</i>
Water Environment Federation	2023	<i>Utility of the Future Today Recognition</i>
	2020	<i>Utility of the Future Today Recognition</i> <i>Public Communication & Outreach Program Award</i> <i>Ralph Fuhrman Medal for Outstanding Water Quality Academic-Practice Collaboration</i>
Water Research Foundation	2022	<i>Outstanding Subscriber Award for Applied Research</i>

FINANCIAL GLOSSARY

Abatement: A complete or partial cancellation of tax levy imposed by a government.

Accrual Basis of Accounting: The basis of accounting under which transactions are recognized when they occur, regardless of the timing of cash receipts and disbursements.

Accrued: The accumulation of a receivable or payable during a given period even though no explicit transaction occurs within that period.

Activities: The major programs and projects performed by an organizational unit.

Ad Valorem Tax: A tax levied in proportion to the value of the property against which it is levied (also known as property tax).

Appropriation: An amount of money in the budget, authorized by the Board of Commissioners, for expenditure or obligation within organizational units for specific purposes. The Corporate Fund appropriates money for operating and general purposes. The Capital Improvements Bond Fund appropriates money for major improvements, plant expansion, sewers, etc.

Assessed Valuation: The value of all taxable property within the boundaries of the District as a basis for levying taxes (i.e., the property's value). See Tax Base.

Assets: Resources owned or held by the District which have monetary value.

Balance Sheet: A statement showing the financial position at a given time, disclosing assets, liabilities, and fund balances.

Balanced Budget: Budgeted resources are equal to budgeted requirements.

Bond: A written promise to pay a specified sum of money (called the principal) at a specified date in the future, together with periodic interest at a specified rate. In the budget document, these payments are identified as debt service.

Bond Redemption & Interest Fund (Debt Service Fund): Established to account for annual property tax levies and certain other revenues, primarily interest on investments, which are used for the payment of principal and interest of general obligation bond issues.

Budget: A balanced financial plan for a given period of time, which includes appropriations and tax levy ordinances for the various sources of revenue which finance the various funds. The budget is not only a financial plan; it also serves as a policy guide, as an operations guide, and as a communications medium.

Capital Equipment: Fixed assets such as vehicles, marine equipment, computers, furniture, technical instruments, etc., which have a life expectancy of more than one year and a value over \$5,000.

Capital Improvement Program: The aggregate compilation of those individual construction projects identified as necessary for new facilities, or to rehabilitate, replace, or expand existing District facilities, for the District to continue to meet its statutory service mandates in keeping with existing regulatory requirements.

Capital Improvements Bond Fund: Established to account for the proceeds of bonds authorized by the Illinois General Assembly, government grants and certain other revenues, all to be used in connection with improvements, replacements and additions to the District's facilities.

Capital Outlay: Expenditures which result in the acquisition of, or addition to, fixed assets, including land, buildings, improvements, machinery, and equipment. Most equipment or machinery is included in the annual operating budget. Capital improvements such as the acquisition of land, construction, and engineering expenses are included in the Capital Budget.

Capital Projects Fund: Established to account for all resources, principally bond proceeds and construction grants, which are used for the acquisition or construction of capital facilities. Included in Capital Projects Funds are the Capital Improvements Bond Fund and the Construction Fund.

Capitalized: Capital outlays recorded as additions to the asset account, not as expenses.

Carryover (Net Assets Appropriable): The resource balance left after subtracting Current Liabilities and Designated Fund Balances from Current Assets.

Cash Basis of Accounting: Revenues are not recorded until cash is received, and expenditures are recorded only when cash is disbursed.

Cash Management: A conscious effort to manage cash flows in such a way that interest and penalties paid are minimized and interest earned is maximized. Funds received are deposited on the day of receipt and invested as soon as the funds are available. The District maximizes the return on all funds available for investment without sacrifice of safety or necessary liquidity.

Classification of Budgetary Code Accounts: A manual published annually which specifies the official code designations set forth in the annual budget for the purposes of accounting and expenditure control. Budgetary code listings for funds, organizations, locations, programs and line items are included.

Commitment Items: Expenditure classifications established to account for and budget for approved appropriations. Also referred to as Line Items.

Construction Fund: Established to account for an annual property tax levy and certain other revenues to be used in connection with improvements, replacements, and additions to the District's facilities.

FINANCIAL GLOSSARY (continued)

Construction Working Cash Fund: Established to make temporary loans (repayable from the tax levy of the applicable year) to the Construction Fund, thus reducing the need for issuing short-term debt and the resultant interest expense.

Consumer Price Index (CPI-U): A measure of the average change over time in the prices paid by urban consumers for a market basket of consumer goods and services.

Corporate Fund: Established to account for an annual property tax levy and certain other revenues which are to be used for the operations and payments of general expenditures of the District not specifically chargeable to other funds.

Corporate Working Cash Fund: Established to make temporary loans (repayable from the tax levy of the applicable year) to the Corporate Fund, thus reducing the need for issuing short-term debt and the resultant interest expense.

Crosshatch (#): The crosshatch mark (#) indicates a restriction on the filling of a vacated position.

Current Assets: Cash plus assets that are expected to be converted to cash, sold, or consumed during the next twelve months or as a part of the normal operating cycle.

Current Liabilities: Obligations that will become due within the next year or within the normal operating cycle, if longer than a year.

Debt Service Fund: See Bond Redemption & Interest Fund.

Debt Service Requirements: The amount of money required to pay interest and principal on outstanding debt.

Delinquent Taxes: Taxes remaining unpaid on and after the date to which a penalty for nonpayment is attached.

Depreciation: The allocation of the acquisition cost of plant, property, and equipment to the particular periods or products that benefit from the utilization of the asset in service.

Disbursements: Payments made on obligations.

Encumbrances: Obligations incurred in the form of orders, contracts, and similar items that will become payable when goods are delivered or services rendered.

Equalization: After the County Assessor has established the assessed valuation for a given year, and following any revisions by the Board of (Tax) Appeals, the Illinois Department of Revenue is required by statute to review the assessed valuation. The Illinois Department of Revenue establishes an equalization factor, commonly called the “multiplier,” for each county to make all valuations uniform among the 102 counties in the state.

Equalized Assessed Valuation (EAV): Once the equalization factor (multiplier) is established, the assessed valuation, as revised by the Board of (Tax) Appeals, is multiplied by the equalization factor (multiplier) to determine the EAV.

Expenditure: An amount of money disbursed or obligated. Expenditures include current operating expenses requiring the present or future use of net current assets, debt service, and capital outlays. (see Accrual and Cash Basis of Accounting).

Fiduciary Funds: Established to account for transactions related to assets held in trust for a public purpose.

Fiscal Year: The timeframe to which the budget applies. The period for the District is from January 1 through December 31.

Fixed Assets: Long-term tangible assets that have a normal use expectancy of more than one year and do not lose their individual identity through use. Fixed assets include buildings, equipment, improvements other than buildings, and land.

Function: A group of related tasks, such as sewage treatment and collection, or the reduction of water pollution, which is aimed at accomplishing a major service or regulatory program for which a governmental unit is responsible.

Fund: An accounting entity established to account for sums of money or other resources, such as taxes, charges, fees, etc., to conduct specified operations and to attain certain objectives. Funds are frequently under specific limitations. For more information regarding specific funds, refer to the Financial Narrative in [Section III](#), “Financial Statements by Fund.”

Fund Accounting: A governmental accounting system which is organized and operated on a fund basis.

Fund Balance: The cumulative difference of all revenues and all expenditures of the fund from the time the governmental entity was established. Fund balance is also considered to be the difference between fund assets and fund liabilities, and is sometimes referred to as “fund equity.”

Generally Accepted Accounting Principles (GAAP): Uniform minimum standards of, and guidelines for, external financial accounting and reporting. They govern the form and content of the basic financial statements of an entity. GAAP encompasses the conventions, rules, and procedures necessary to define accepted accounting practices at a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provides a standard by which to measure financial presentations. The primary authoritative statement on the application of GAAP to state and local governments is Government Accounting Standards Board (GASB) pronouncements.

General Obligation Bonds: Bonds, the payment for which the full faith and credit of the issuing government are pledged.

FINANCIAL GLOSSARY (continued)

Governmental Funds: Group of funds utilized to account for revenues and expenditures in compliance with the legal requirements and constraints of current statutes for governmental agencies.

Grant: A contribution by one governmental unit to another unit. The contribution is usually made to aid in the support of a specified function, such as sewer construction, pollution control, etc.

Home-Rule Unit: The principle or practice of self-government in the internal affairs of a dependent political unit. In Illinois, any municipality with a population of more than 25,000 is a home-rule unit unless it elects by referendum not to be a home-rule unit. Any other municipality may elect by referendum to become a home-rule unit.

Internal Control: Methods and procedures that are mainly concerned with the authorization of transactions, safeguarding of assets, and accuracy of the financial records.

Liabilities: Obligations incurred in past or current transactions requiring present or future settlement.

Limited Tax Bonds: A form of non-referendum bonding authority granted by Illinois Public Act 89-385 allowing the District to issue additional debt for projects initiated after October 1, 1991. Limited Tax Bonds can be issued to the extent that the total debt service requirements of any new debt, when combined with existing debt service, do not exceed the debt service extension base established by the Act.

Line Items: Expenditure classifications established to account for and budget for approved appropriations. Also referred to as Commitment Items.

Mid-Year Reviews: Twice during the fiscal year (in May and August), the current year budget is evaluated based on spending to date and current projections. The primary areas reviewed and analyzed are (1) current year budget versus previous year revenues and expenditures; (2) year-to-date expenditure and revenue status plus expenditure and revenue projections for the remainder of the year; and (3) data to support recommendations for budget transfers.

Modified Accrual Basis of Accounting: The basis of accounting under which revenues are recognized when measurable and available to pay liabilities, and expenditures are recognized when the liability is incurred except for interest on long-term debt which is recognized when due.

Multiplier: See Equalization.

Net Assets Appropriable: That resource balance left after subtracting Current Liabilities and Designated Fund Balances from Current Assets. Commonly referred to as carryover.

Net Present Value: A mathematical formula used to measure the expected return on investments by calculating how much money needs to be invested today to result in a certain sum at a future time.

Object Classification: A grouping of expenditures on the basis of goods or services purchased (e.g., personal services, materials and supplies, equipment, etc.), also referred to as Object of Expenditure.

Objectives: The annual organizational levels of achievement expected. A statement of purpose defined more specifically than a goal. (A goal can include several related objectives.) Objectives are listed in order of priority with their associated costs, including estimates of salaries, equipment, supplies, etc.

Obligations: Amounts which a government may be legally required to meet out of its resources. They include not only actual liabilities, but also encumbrances not yet paid.

Ordinance: A bill, resolution, or order by means of which appropriations are given legal effect. It is the method by which the appropriation of the annual budget is enacted into law by the Board of Commissioners per authority of state statutes.

Other Postemployment Benefits (OPEB): Cost of retiree health insurance benefits recognized over the active service life of the employees rather than on a pay-as-you-go basis.

Performance: The measurable unit of types of work, related to District activities and, where meaningful, the costs of operation that are used to develop the costs for each unit of activity (e.g., dollars per one million gallons of sewage treated).

Personal Property Replacement Tax: Since July 1979, this income tax on corporations, partnerships, and invested capital of utilities replaces the personal property taxes previously levied.

Pollution Control Facilities: The State of Illinois directly assesses all pollution control facilities which have been certified by the Pollution Control Board. Pollution control facilities include any system, method, construction, device, or appliance appurtenant that is designed, constructed, installed, or operated for the primary purpose of eliminating, preventing, or reducing air and water pollution as defined in the Environmental Protection Act. This does not include any pollution control facility used for radioactive waste, nuclear generation of electrical energy, or for sewage disposal or treatment.

Programs: The essential activities performed by the District such as collection, treatment, flood and pollution control, etc., including specific and related sub-activities.

Property Tax Extension Limitation Laws: Illinois Public Act 89-0001 provides for limitations on real estate property tax levies. As applicable to the District, the 1994 tax levy, payable in 1995 is limited to a 5 percent increase from the 1993 levy. Future levies are limited to increases of the lesser of 5 percent or the percentage change in the national Consumer Price Index (CPI-U).

FINANCIAL GLOSSARY (continued)

Property Tax Rate: The amount of tax stated in terms of a unit of the tax base, expressed as dollars per \$100 of equalized assessed valuation.

Railroad Property: The State of Illinois directly assesses railroad property which includes all railroad “operating property.” Tracks and right-of-way, all structures, equipment, and all property connected with or used in the operation of the railroad along with real estate held for expansion. Non-operating railroad property is assessed by the County Assessor.

Real Property: Real estate, including land and improvements (buildings, fences, pavements, etc.), classified for purposes of assessment.

Refunding Bonds: Bonds issued to retire bonds already outstanding.

Reserve Claim Fund: Established for the payment of claims, awards, losses, judgments, or liabilities which might be imposed against the District, and for the emergency repair or replacement of damaged District property.

Resources: The actual assets of a governmental unit, such as cash, taxes receivable, land, buildings, etc., including estimated revenues applying to the current fiscal year, and bonds authorized and unissued.

Retirement Fund: Established to account for annual pension costs and supported in part by property taxes which are levied in accordance with statutory requirements.

Revenue: Income generated by taxes, notes, bonds, investment income, land rental, user charge, sludge, and scrap sales, as well as federal and state grants.

Sinking Fund: See Bond Redemption & Interest Fund.

Special District: A governmental entity established by the State of Illinois for a specific purpose or purposes. The District was originally organized under an act of the General Assembly of the State of Illinois in 1889.

State Revolving Fund (SRF): Under the Water Quality Act Amendment of 1987, federal authorization created State Revolving Funds administered by State agencies which provide loans from these funds to municipal agencies for their wastewater construction programs. These loans carry interest rates which are below general rates available in the municipal bond market. Therefore, pollution control facilities receive subsidies which can provide the approximate equivalent of a 25 to 30 percent grant.

Tax Base: The aggregate value of the items being taxed. The base of the District’s real property tax is the market value of all taxable real estate within the boundaries of the District. See assessed valuation.

Tax Cap: (Property Tax Extension Limitation Laws). Illinois Public Act 89-0001 provides for limitations on real estate property tax levies. As applicable to the District, the 1994 tax levy, payable in 1995 is limited to a 5 percent increase from the 1993 levy. Future levies are limited to increases of the lesser of 5 percent or the percentage change in the National Consumer Price Index (CPI-U).

Tax Levy: An amount of money raised through the collection of property taxes to finance each fund operation.

Tax Levy Ordinance: An ordinance through which taxes are levied. See ordinance.

Tax Rate: See Property Tax Rate.

Taxes: Mandatory charges levied by a governmental unit for the purpose of financing services performed for the common benefit.

User Charge System: In compliance with the 1977 Clean Water Act, the District is required to augment the ad valorem property tax system with a charge related to the actual use of waste treatment services. Users exceeding their ad valorem amount pay additional amounts for services received.

Working Cash Funds (Corporate, Construction, and Stormwater): Authorized by Illinois State Statutes to make temporary loans to the Corporate, Construction, and Stormwater Management Funds. Loans are repaid to the Working Cash Funds from the tax levies of the funds. The use of Working Cash Funds eliminates the need for the issuance of short-term financing.

GLOSSARY OF TECHNICAL TERMS

Biochemical Oxygen Demand (BOD): The quantity of oxygen used in the biochemical oxidation of organic matter in a specified time, at a specific temperature, and under specific conditions; the BOD analysis is a standard test used in assessing wastewater strength. See “Carbonaceous Biochemical Oxygen Demand.”

Biological Oxidation: The process whereby living organisms, in the presence of oxygen, convert the organic matter contained in wastewater into new cells and subsequently into more stable compounds.

Biosolids: The nutrient-rich organic materials resulting from the treatment of domestic sewage in a wastewater treatment facility. These organic materials are generated when solids (sewage sludge) generated during the treatment of domestic sewage are treated further to meet the 40 CFR (Code of Federal Regulations) Part 503 sewage sludge regulatory requirements for beneficial reuse.

Carbonaceous Biochemical Oxygen Demand (CBOD): The portion of BOD attributable to organic matter containing carbon; does not include nitrogenous oxygen demand.

Centrifuge: A mechanical device in which centrifugal force is used to separate solids from liquids and/or to separate liquids of different densities, e.g., a dewatering device.

Coarse and Fine Screens: A coarse screen is a bar screen with approximate 3” openings located at the point of incoming wastewater which is used to capture large objects and other debris; this device protects the sewage pumps. A fine screen is a bar screen with approximately 5/8” openings to collect and remove small debris via a traveling rake. The screening is conveyed to a scavenger disposal box.

Collection System: A system of underground conduits/sewers collecting wastewater from a source and conveying it to the treatment facility.

Combined Sewer: A sewer that transports wastewater and (in wet weather conditions) stormwater.

Design Capacity: The maximum rate of sewage flow which a treatment plant is capable of treating, on a long-term basis, to continuously attain required effluent quality.

Dewatering: Water removal or concentration of solids by filtration, centrifugation, or drying.

Digestion, Anaerobic: The biological decomposition of organic matter in the absence of oxygen, resulting in partial gasification, liquidation, and mineralization. The digester gas is collected, compressed, and used to fuel the plant boilers.

Drying Bed: Large areas on which solids are placed for dewatering by gravity, drainage, and evaporation.

Effluent: The resulting product of the wastewater treatment process which is also used for tank cleaning, grass watering, and conveyor belt cleaning.

Exceptional Quality (EQ): Exceptional Quality refers to biosolids or composted biosolids that meet the Class A pathogen standard, lowest metal concentration limits, and vector attraction reduction requirement specified in 40 CFR Part 503. Biosolids meeting the EQ criteria can be beneficially used without any restrictions.

503 Regulations: The United States Environmental Protection Agency issued on February 19, 1993, comprehensive federal sewage sludge use and disposal regulations which are organized in five parts: general provisions, land application, surface disposal, pathogens and vector attraction reduction, and incineration. Parts addressing standards for land application, surface disposal, and incineration practices consist of sections covering applicability and special requirements, management practices, frequency of monitoring, recordkeeping, and reporting requirements.

Industrial User (IU): A person who conducts any industrial, manufacturing, agricultural, trade, or business process or who conducts the development, recovery, or processing of natural resources.

Industrial Waste: All solid, liquid, or gaseous waste resulting from an industrial user.

Infrastructure: Assets that are long-lived capital assets that normally are stationary in nature and normally can be preserved for a significantly greater number of years than most capital assets. Examples from our infrastructure holdings include: wastewater tankage, LASMA Drying sites, SEPA stations, the Deep Tunnel, and sewerage interceptors.

Interceptor: A larger sewer which “intercepts” the wastewater from smaller and/or local sewers.

Interceptor Inspection and Rehabilitation Program (IIRP): The inspection and repair of District sewers and interceptors.

Lagoon, Solids: An earthen basin which is used for the storage, continued stabilization, and dewatering of solids.

Lysimeter: A device used for collecting water from the pore spaces of soils and for determining the chemical composition of the water that percolates through a certain depth of soil.

Maintenance Management System (MMS): A District-wide computerized system to assist management in maintaining the District’s infrastructure.

National Pollutant Discharge Elimination System (NPDES): The permit and regulation system governing direct discharges into navigable waters administered by the IEPA and USEPA.

Odor Control Program: The systematic modifying or altering of certain processes to minimize obnoxious odors. Ferric chloride, ozonation (conversion of oxygen into ozone), and deodorants are some of the various methods used in combating odors.

GLOSSARY OF TECHNICAL TERMS (continued)

Phycoremediation: The process of using algae (macro-algae or micro-algae) for the removal of pollutants, like nutrients (nitrogen and phosphorus), from the wastewater and carbon dioxide (CO₂) from waste air.

Pretreatment (Industrial): Any method, construction, device, arrangement, or appliance installed for the purpose of treating, neutralizing, stabilizing, disinfecting, or disposing of sewage, industrial waste, or other wastes prior to entry into the District's sewerage system.

Pretreatment Program: The District's efforts to identify, monitor and control by enforcement, the discharge of industrial waste from industrial sources into the District's sewerage system, in conformance with federal regulations promulgated pursuant to the Clean Water Act.

Primary Treatment: The District uses a series of large screens to remove large debris from the wastewater which can clog the machinery. Heavy solids like sand and grit are then removed in the grit chamber. Any remaining heavy solids settle to the bottom of the primary settling tanks.

Reservoirs, Storm: Temporary storage areas for containing surface waters during extreme storm conditions.

Secondary Treatment Process: The wastewater flows to aeration tanks which have been seeded with bacteria. Filtered air is pumped through the liquid to provide oxygen for the bacteria. The bacteria consume organic materials in the wastewater, grow and multiply. The mixture of bacteria and water then flow into a secondary settling tank. The bacteria clump together and become heavy "flocs" which settle to the bottom of the tank and are removed. At this point, the water can be discharged to a nearby waterway after disinfection, with over 90 percent of its contaminants removed.

Set Point: The desired or target value for an essential variable of a system.

Sewage: Water-carried human wastes or a combination of water-carried wastes from residences, business buildings, institutions, and industrial establishments, together with such ground, surface, storm, or other waters as may be present.

Sewage and Waste Control Ordinance: An ordinance to provide for the abatement and prevention of pollution by regulating and controlling the quantity and quality of sewage and industrial waste admitted to or discharged into the sewerage systems, sewage treatment facilities, and waterways under the jurisdiction of the District. This ordinance was originally adopted by the District's Board of Commissioners in 1969 and continues to be amended as necessary.

Sewerage System: Sewers, intercepting sewers, pipes, or conduits, pumping stations, force mains, constructed drainage ditches, surface water intercepting ditches, and all other constructions, devices, and appliances used for collecting or conducting sewage, industrial waste, or other wastes to a point of treatment or ultimate disposal.

Sidestream Elevated Pool Aeration (SEPA): A process in which a portion of the flow of a body of water is pumped up approximately 15 feet; the water is then allowed to cascade downward over a series of weirs, thus increasing the dissolved oxygen content of the body of water.

Solids: The accumulated solids separated from wastewater during processing. The precipitate or product from chemical treatment, coagulation, or sedimentation of wastewater.

Solids Content: The weight of total solids in sludge per unit total weight of sludge, expressed in percent. Water content plus solids content equals 100 percent.

Solids Processing: A variety of settling or filtering operations (grit and scum dewatering, raw sludge concentration, sludge stabilization, dewatered stabilized sludge air drying, for example) used to collect solid material from wastewater or other liquids for subsequent utilization.

Spoil Pile: Excavated materials such as soil and rock that are piled for storage as the result of canal construction activities.

Struvite: A salt precipitate of magnesium, ammonium, and phosphate in wastewater treatment facilities which may build up to the level that cause operational blockages.

Suspended Solids: Solid material that either floats on the surface of, or contained in suspension in, wastewater or other liquids. This material is largely removed by settling or filtering processes at a treatment plant. (See Solids Processing, above.)

TARP (Deep Tunnel): The Tunnel and Reservoir Plan (TARP) improves water quality by capturing combined sewer overflows (CSOs), storing this polluted wastewater, and then pumping it to a treatment plant for processing.

Tertiary Treatment: The third stage of wastewater treatment which purifies the wastewater by removal of fine particles, nitrates, and phosphates with sand filtration. This process removes 99 percent of the impurities.

United States Environmental Protection Agency (USEPA): This federal agency is responsible for setting the guidelines and policies related to wastewater effluents and solids disposal. The Illinois EPA issues the District's National Pollutant Discharge Elimination System permit and other regulatory constraints.

Utilization: Solids used for daily landfill cover, final cover for landfill closure, and to reclaim severely disturbed soil such as strip-mining land.

Wastewater Treatment: Processes which involve physical removal of contaminants from the wastewater by use of coarse screens, fine screens, grit tanks and settling tanks (primary treatment); further treatment via aeration and clarification (secondary treatment); and in some cases, the physical or chemical separation and removal of impurities from secondary-treated effluent (tertiary treatment).

Wetlands: Areas which are inundated by surface or groundwater at a frequency which maintains saturation. The wetlands can be natural (marshes, bogs, swamps, for example) or manmade.

NOTE PAGE

Metropolitan Water Reclamation District of Greater Chicago Historical Information And Milestones

- 1837** Chicago was incorporated as a city. The city's primary source of drinking water is Lake Michigan. Due to poor drainage and discharges to Lake Michigan, water-borne diseases plagued the city throughout the 1800s.
- 1856** Sewers were constructed to collect the city's wastewater. These sewers emptied into the Chicago River, ultimately becoming a health hazard.
- 1885** A torrential rainstorm flushed pollution from the river into Lake Michigan prompting public concern for ways to safeguard the quality of the drinking water.
- 1886** A Drainage and Water Supply Commission was created to study the growing problem of contamination of the city's water supply.
- 1889** Illinois Legislature passed an act enabling the establishment of the Sanitary District of Chicago to keep sewage pollution out of Lake Michigan. Referendum passed creating the Sanitary District of Chicago.
- 1892** Ground was broken on the 28-mile Main Channel of the Sanitary and Ship Canal. The canal would reverse the flow of the Chicago River by linking it to the Des Plaines River, and thus prevent pollution of Lake Michigan by the river.
- 1900** Main Channel of the Sanitary and Ship Canal opened.
- 1907** Main Channel Extension including Lockport Powerhouse and Lock completed.
- 1910** North Shore Channel completed.
- 1919** District's Board of Commissioners passed an ordinance committing the District to the construction and operation of treatment plants.
- 1922** The 16-mile Calumet-Sag Channel became operational; Calumet Treatment Plant placed into operation.
- 1928** North Side Treatment Plant placed into operation.
- 1930** U.S. Supreme Court Decree issued reducing diversion of Lake Michigan in steps. Effective January 1, 1939, diversion reduced to 1,500 cubic feet per second; West Side Treatment Plant placed into operation.
- 1939** Southwest Treatment Plant placed into operation.
- 1949** West and Southwest Treatment Plants combined.
- 1955** District's name changed to the Metropolitan Sanitary District of Greater Chicago (MSDGC); the Chicago Sewage Disposal System named one of the Seven Wonders of Modern Engineering by the American Society of Civil Engineers (ASCE), recognizing the size of the system, including intercepting sewers, treatment plants, and waterways.
- 1956** Referendum, enabled by legislation, passed adding 412 square miles to the District.
- 1961** Lemont Treatment Plant placed into operation.
- 1963** Hanover Park Treatment Plant placed into operation.
- 1969** Board adopted the Sewage and Waste Control Ordinance, prohibiting any waste discharge into Lake Michigan.
- 1971** Fulton County "Prairie Plan" began whereby abandoned strip-mines were reclaimed into agriculturally productive land; won "Special Civil Engineering Achievement Award" in 1974 from the ASCE.
- 1972** District adopted the Tunnel and Reservoir Plan (TARP) as recommended by a committee of representatives from the state, city, county, and MSDGC. The plan provided for the collection, transportation, storage, and treatment of combined rainwater and sewage that in periods of heavy rain overflowed into waterways, underpasses, and basements.
- 1975** Construction began on the 31-mile Mainstream tunnel system; Egan Treatment Plant placed into operation.
- 1977** Construction began on the Calumet tunnel system.
- 1980** O'Hare Treatment Plant (later renamed Kirie Water Reclamation Plant) and Upper Des Plaines TARP tunnel system placed into operation.
- 1985** Mainstream tunnel system placed into operation, capable of storing one billion gallons of combined sewage and stormwater; TARP Mainstream System, Phase I, received award for "Outstanding Civil Engineering Achievement" from the ASCE.
- 1986** TARP received awards for "Outstanding Civil Engineering Achievement" and "Outstanding Civil Engineering Achievement of Past 100 Years in Illinois"; 9.2-mile Calumet tunnel system placed into operation.
- 1988** Water quality improvements recognized as causing increased real estate development along the waterway system; construction began on the Des Plaines TARP tunnel.
- 1989** District celebrated its 100th anniversary. As part of the Centennial Celebration, the District changed its name to the Metropolitan Water Reclamation District of Greater Chicago and dedicated the Centennial Fountain.
- 1990** Army Corps of Engineers and the District began construction of the O'Hare-CUP Reservoir, the first of three reservoirs in the TARP program.
- 1992-1994** District's five Sidestream Elevated Pool Aeration Stations (SEPA) completed along the Calumet River system. These stations add oxygen to the waterways to enhance the aquatic environment. The District received "Outstanding Civil Engineering Achievement" in 1994 by ASCE for these projects.
- 1998** O'Hare-CUP Reservoir placed into operation, capable of storing 350 million gallons of combined sewage and stormwater; North Branch tunnel placed into operation.
- 1999** Des Plaines tunnel placed into operation; construction began on the McCook Reservoir.
- 2000** District celebrated the 100th anniversary of the reversal of the Chicago River and completed a century of protecting Chicago's water environment; construction began on Thornton Transitional Reservoir.
- 2003** Construction began on the major capital improvement program for the Calumet, North Side, and Stickney Water Reclamation Plants.
- 2004** By an act of the Illinois Legislature, the District became responsible for stormwater management in Cook County.
- 2006** TARP Phase I 109-mile tunnel system completed; all four TARP tunnel systems in operation.
- 2007** District celebrated 100th anniversary of the Lockport Powerhouse and Dam.
- 2009** Construction of the Thornton Composite Reservoir began.
- 2010** District celebrated the 100th anniversary of the North Shore Channel.
- 2012** North Side Water Reclamation Plant renamed Terrence J. O'Brien Water Reclamation Plant.
- 2013** Board adopted the Watershed Management Ordinance, establishing uniform and minimum stormwater regulations throughout Cook County.
- 2014** District celebrated its 125th anniversary.
- 2015** Disinfection facility at the Calumet Water Reclamation Plant placed into operation. Thornton Composite Reservoir placed into operation.
- 2016** Phosphorus recovery facility placed into operation at the Stickney Water Reclamation Plant; implemented an ultraviolet disinfection process at the O'Brien Water Reclamation Plant; Board adopted the Resource Recovery Ordinance, which provides legal framework for resource recovery initiatives.
- 2017** Phase I of the McCook Reservoir completed.

BELOW:

New landscaping on the shore of the Cal-Sag Channel east of Kedzie Avenue in Robbins is part of the first phase of the Robbins Heritage Park and Midlothian Creek Restoration Project.

The project will help address overbank flooding through a new stormwater park and pond, along with improvements to Midlothian Creek and an overflow channel that connects to the Cal-Sag Channel. The Robbins Heritage Park will include a naturalized wetland detention area and channel improvements to resemble a park-like setting in central Robbins, along with bioswales and a rain garden.

ON THE COVER:

MWRD trades worked to repair a pump in the Southwest Pump and Blower Building at the Stickney Water Reclamation Plant.

The six massive pumps in this facility with 3,000 to 3,500 horsepower motors can each convey up to 240 million gallons of water per day. This critical step in the treatment process lifts water up from the sewer level to the ground so it can flow by gravity through the treatment processes in the rest of the plant.

Illinois**

For the Fiscal Year Beginning

January 01, 2024

Christopher P. Morill

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to Metropolitan Water Reclamation District of Greater Chicago, Illinois for its Annual Budget for the fiscal year beginning January 1, 2024. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as a financial plan, as an operations guide, and as a communications device.

The award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

November 21, 2024

The Honorable Kari K. Steele
And Members of the Board of Commissioners
O F F I C E

Honorable Ladies and Gentlemen:

The Metropolitan Water Reclamation District of Greater Chicago (District) 2025 Budget, as presented by the Executive Director and revised by the Committee on Budget and Employment, is a \$1.7 billion fiscally responsible spending plan that invests in public infrastructure and considers the long-term environmental and financial implications of permit compliance. The District continues to maintain an aggressive Capital Improvement Program that addresses infrastructure needs and optimizes the life cycle of critical assets. Additionally, the District remains committed to providing advance funding to the MWRD Retirement Fund. The 2025 Budget includes an anticipated \$21.6 million transfer of budgetary reserves and \$8.4 million from the 2023 Property Tax Levy Adjustment to maintain the Retirement Fund's funded ratio. The District's funding policies for both its Retirement Fund and Other Postemployment Benefits Fund demonstrate a commitment to long-term fiscal management.

Committee Hearings

The Committee on Budget and Employment received the Executive Director's Recommendations on October 15, 2024. A hearing on these recommendations was conducted on November 7, 2024, when the Executive Director and his Executive Team presented initiatives included in the 2025 Budget. The Executive Director presented a financial summary of the 2025 Budget. The District has a stable Corporate Fund and an ambitious Capital Improvement Program.

Operating Budget

The 2025 Corporate Fund Budget is \$522.3 million, an increase of \$25.0 million, from the 2024 Adjusted Budget. Year-over-year increases to the Corporate Fund Budget are attributable primarily to increases in labor costs, processing chemicals, biosolids disposal, insurance premiums, and a one-time Tunnel and Reservoir Plan maintenance cost. Looking ahead to 2025, as economic conditions stabilize, the District will continue to take a measured approach to managing the District's financial obligations.

The District serves 129 communities covering nearly all of Cook County, treating an average of 1.2 billion gallons of water each day, with a total treatment capacity of 2.0 billion gallons per day at seven water reclamation plants (WRPs). The District controls 76.1 miles of navigable waterways and owns and operates 33 stormwater detention reservoirs to provide regional flood protection. The District continues the decades long tradition of outstanding permit compliance as recognized by the National Association of Clean Water Agencies. The goal remains 100 percent permit compliance with National Pollutant Discharge Elimination System permits at all seven WRPs. Additionally, the District is an industry and community leader, benefiting residents through innovative and future-focused programs.

The Maintenance & Operations Department maintains and operates the District's facilities and has a 2025 Budget of \$293.3 million. The department's budget continues to address supply chain delays, competitive labor markets, and increases in the biosolids program. The District continues to address future regulatory permit requirements that will impact future operating costs and is actively looking into optimal solutions for phosphorus removal at the WRPs as required by National Pollutant Discharge Elimination System permits. The Kirie and O'Brien WRPs will have phosphorus limits in 2026 and 2027,

respectively, and the Egan and Hanover Park WRPs by 2031 at the earliest. The Stickney and Calumet WRPs became subject to a phosphorus limit in 2021 and 2024, respectively. Additionally, the budget for the biosolids program increases by \$7.9 million in 2025 as the District is actively pursuing a biosolids strategy to normalize the biosolids program.

Kirie, O'Brien, Egan, and Hanover Park WRPs are four of seven wastewater treatment facilities that comprise the North Service Area with regulatory permit requirements for phosphorus limits coming online in the new future.

From 2021 to 2023, the District's positive Corporate Fund results were driven by Personal Property Replacement Tax (PPRT) over-performance. As anticipated in the 2024 Budget, PPRT disbursements have slowed, resulting in spending of budgetary reserves. The use of budgetary reserves is projected for the 2025 Budget until these disbursements are normalized in 2026.

Capital Budget

The District's 2025 Capital Improvement Program (CIP) modernizes aging infrastructure, prepares for changing effluent permit conditions, and addresses stormwater management capital projects. The 2025 Capital Improvement Program Budget is \$739.1 million and includes a \$367.8 million project to build a modern battery at the O'Brien WRP that will allow for the biological phosphorus removal. While this project is included in the 2025 budget, the facility will be built from 2025-2028. Of the total budget, 70.0 percent is dedicated to projects at the seven WRPs, including phosphorus removal modifications, pump and blower house rehabilitation, switchgear and motor control center replacement, and other projects necessary to rehabilitate century-old facilities. In addition to work at the WRPs, the 2025 CIP includes \$35.4 million, or 4.8 percent, for four intercepting sewer rehabilitation projects.

Long-range capital planning is critical to ensuring that the District continues to improve efficiency and protect the water environment while remaining affordable for the taxpayer. In addition to grant funding, the District utilizes State Revolving Fund loans, general obligation bonds, and pay-as-you-go funding to maximize taxpayer value. Recognizing the need to invest in modernizing aging infrastructure, the District will allocate \$18.0 million in PPRT revenue to the Construction Fund in 2025 and \$15.0 million each year from 2026-2029, enhancing the CIP funding mix. The 2025 funding ratio is 61.4 percent general obligation bonds, 22.1 percent pay-as-you-go financing, 10.4 percent State Revolving Fund loans, and 6.1 percent grants and reimbursements.

Stormwater Management

Climate change and changing weather patterns with intense bursts of precipitation can quickly overwhelm systems throughout the region. The District has been proactive in addressing climate changes and on May 4, 2023, adopted a Climate Action Plan to outline a path forward for the agency to contribute toward reducing its carbon footprint and adapt to climate change-related impacts. The Climate Action Plan was developed by an interdepartmental task force and presented for public review prior to adoption.

The District partners with communities to build capital improvement and green infrastructure projects that address regional and local flooding issues and manages a flood-prone property acquisition program that removes homes built in the floodplain. To date, the District has advanced over 260 stormwater management projects.

Six new green parking lots using permeable pavers to collect more stormwater and reduce the load on local sewers and waterways can be seen at North Riverside Commons complex.

The District has been successful in obtaining grants and reimbursements to fund regional and local flood control projects and secured \$10.0 million from the Hazard Mitigation Grant Program for the Addison Creek Channel Improvements project and \$20.0 million from the Army Corps of Engineers as reimbursement for the District's work on the design and construction of the Thornton Composite Reservoir.

Partnering with Cook County, up to \$18.0 million in American Rescue Plan Act funding to address localized flooding will be received over four years, including an estimated \$1.1 million in 2024 and \$7.1 million in 2025. Additional grants are also being pursued for the Suburban Green Schoolyard pilots and other flood mitigation projects.

The 2025 Budget continues the District's commitment to reduce flooding. The 2025 Stormwater Management Fund Budget is \$130.6 million to further our investment in flood control projects and support of local stormwater issues. The 2025 Property Tax Levy is \$62.5 million.

2021-2025 Strategic Plan

The District's annual budget preparation process continues to rely on Strategic Plan principles of Engagement, Collaboration, Equity, Innovation, and Resilience to inform development of strategies, initiatives, and funding priorities. The 2021-2025 Strategic Plan concluded its third year in June 2024 and is approximately 60 percent completed. A majority of the Strategic Plan's activities are expected to conclude towards the end of the five-year period, but accomplishments during the third year include:

- Developed an interactive platform to share Geographic Information System data and receive local input to further clarify flooding issues across the country;
- Created a Recruitment Strategy Committee to assist in the development of targeted recruitment, mentoring, and professional development programs to increase diversity in underrepresented jobs and to grow the candidate pool for hard-to-fill classifications;
- Expanded the innovation ecosystem that experienced a surge in external partnership projects;
- Launched the new website to reflect the District's commitment to community engagement, transparency, and accessibility, and provide an enhanced user experience;
- Founded the Stickney Water Reclamation Plant Community Partnership Council to gather local stakeholders for substantive discussions and initiatives aimed at tackling key challenges affecting their respective area of the county;
- Debuted a new interactive Strategic Plan dashboard to provide clearer visuals, enhance the overall user experience, and streamline the update process.

The District partnered with Evanston to fund a project that called for the reconstruction of parking lanes along Main Street by using permeable pavers that absorb stormwater.

The 2025 Budget includes \$16.9 million of new initiative funding to support the Strategic Plan implementation. Major District-wide performance indicators for each of the five Strategic Goals and the status of these measures can be found on the Strategic Plan Hub (mwr.org/what-we-do/strategic-plan).

Financial Summary

The District continues to maintain a AAA bond rating from Fitch Ratings, a AA+ bond rating from Standard & Poor’s Global Ratings, and an Aa1 stable credit rating from Moody’s Investor Services in recognition of its strong financial operations and reserves that have facilitated significant increases in pension contributions in recent years.

The 2025 Budget increased by \$262.3 million from the 2024 Adjusted Budget and is attributed to a \$237.9 million increase in the Capital Improvements Bond Fund due to the timing of project awards and a \$25.0 million increase in the Corporate Fund due to operational needs.

After being damaged during storms in 2020, the Nicholas J. Melas Centennial Fountain reopened to the public on August 16, 2024.

The District’s tax levy and appropriation for the 2025 Budget, compared to the 2024 Budget as Adjusted is:

	<u>2025</u>	<u>2024 Adjusted</u>	<u>Increase (Decrease)</u>	<u>Percent Change</u>
Total Tax Levy \$	709,708,434	\$ 691,679,040	\$ 18,029,394	2.6%
Aggregate Levy \$	399,442,700	\$ 386,763,700	\$ 12,679,000	3.3%
 Total Appropriation \$	 1,691,197,974	 \$ 1,428,932,635	 \$ 262,265,339	 18.4%

The District's property tax levy is statutorily limited in the aggregate to an annual increase of five percent or the Consumer Price Index (CPI), whichever is lower for all purposes except Stormwater Management and the payment of bond redemption and interest.

Conclusion

Using the Strategic Plan as a guideline to establish priorities, the operation, maintenance, and investment in the District’s infrastructure, flood control projects, and other essential services will continue to receive primary focus. The 2025 Budget continues our conservative fiscal management and includes the policies, objectives, and resources to allow the District to remain true to our mission of protecting our water environment and the health of the residents of Cook County.

Respectfully submitted,

Patricia Theresa Flynn
Chairperson, Committee on Budget and Employment

Budget Amendments

Major Budget Amendments Impacting the 2025 Tentative Budget

The 2025 Executive Director’s Recommended Budget was presented to the Board of Commissioners on October 15, 2024 according to the budget process detailed on pages 28 - 30 of the 2025 Executive Director's Recommendations.

The purpose of this section is to describe budgetary amendments between the Executive Director’s Recommendations and the Tentative Budget. The total appropriation decreased by \$14.4 million, or 0.84 percent, from the 2025 Executive Director’s Recommendations of \$1.706 billion to \$1.691 billion primarily due to decreases in the Capital Improvements Bond Fund.

The Retirement Fund, Reserve Claim Fund, and Bond Redemption & Interest Fund are presented without modification from the 2025 Executive Director’s Recommendations.

	Appropriations				
	2025 Executive Director's Recommendations	2025 Tentative Budget	Increase (Decrease)	Percent Change	
Corporate Fund	\$ 522,294,700	\$ 522,294,700	\$ —	—	%
Construction Fund	81,080,900	81,470,900	390,000	0.48	%
Retirement Fund	118,736,000	118,736,000	—	—	%
Reserve Claim Fund	57,286,800	57,286,800	—	—	%
Capital Improvements Bond Fund	560,924,500	546,174,500	(14,750,000)	(2.63)	%
Stormwater Management Fund	130,614,100	130,614,100	—	—	%
Bond Redemption & Interest Fund	234,620,974	234,620,974	—	—	%
Total Budget	\$ 1,705,557,974	\$ 1,691,197,974	\$(14,360,000)	(0.84)	%

Corporate Fund

The Corporate Fund is the District’s general operating fund and includes appropriation requests for all the day-to-day operational costs anticipated for 2025. The total appropriation request for the Corporate Fund is \$522.3 million, unchanged from the 2025 Executive Director's Recommendations. The net-zero changes in appropriation are primarily due to changes in cost estimates and personnel.

Construction Fund

The Construction Fund, which finances smaller construction projects on a pay-as-you-go basis, increased by \$390,000, or 0.48 percent, from the 2025 Executive Director’s Recommendations of \$81.1 million to \$81.5 million. The change in appropriation is primarily due to a change in the project schedule for a New Entrance at SEPA No. 3.

Capital Improvements Bond Fund

The Capital Improvements Bond Fund is budgeted on an “obligation basis,” meaning that funding for the project is budgeted at the time of award. The projects are funded through current and future anticipated bonds, loans, or grants. The total appropriation request for the Capital Improvements Bond Fund decreased by \$14.8 million, or 2.63 percent, from the 2025 Executive Director’s Recommendations of \$560.9 million to \$546.2 million. The change in appropriation is due to a change in the project schedule for TARP Control System Replacement in the Calumet Service Area (\$26.3 million), partially offset by the addition of final design work for the Replacement of a Dewatering Facility at the Calumet WRP (\$6.5 million) and a change in the project schedule for final design work on the Gloria Alitto Majewski Reservoir Rehabilitation (\$5.0 million).

Stormwater Management Fund

The Stormwater Management Fund is used to fund operational costs directly related to the Stormwater Management Program and pay-as-you-go infrastructure projects. The total appropriation request for the Stormwater Management Fund is \$130.6 million, unchanged from the 2025 Executive Director's Recommendations. The net-zero change in appropriation is due to the addition of the NatureNook Pilot Project 1 in Burnham (\$1.2 million), offset by a change in the project schedule for the Flood Control Project on Prairie Creeks (\$1.0 million) and the Flood Control Project in the Worth Woods Subdivision (\$0.2 million).

CHICAGO, November 21, 2024

REPORT OF COMMITTEE ON BUDGET AND EMPLOYMENT

Presented to the Board of Commissioners of the
Metropolitan Water Reclamation District of Greater Chicago

*To the Honorable, President and Members of the Board of
Commissioners of the Metropolitan Water Reclamation
District of Greater Chicago*

LADIES AND GENTLEMEN:

Your Chairperson of the Committee on Budget and Employment respectfully reports that she has under consideration the resources of the Metropolitan Water Reclamation District of Greater Chicago and its estimated receipts, together with the sum of money required to be appropriated to defray the necessary expenses and liabilities of the Metropolitan Water Reclamation District of Greater Chicago for the fiscal year beginning January 1, 2025 and ending December 31, 2025, as prepared and submitted by the Executive Director in the document entitled "2025 Budget - Executive Director's Recommendations - October 15, 2024," which document is incorporated by reference herein, made a part hereof and attached hereto.

Your Chairperson of the Committee on Budget and Employment has duly considered and reviewed the above budget estimates and revised and amended the same, in certain particulars, which estimates, as amended, were and are approved by your Chairperson of the Committee on Budget and Employment and are submitted herewith in final revised form, setting forth the details of the estimates of the resources, revenues and expenditures for the future consideration, review, adoption, and passage by the Board of Commissioners. Your Chairperson of the Committee on Budget and Employment further reports that in the consideration and revision of the estimated resources and departmental expenditures, it has received, considered, and transmits them herewith for the guidance of the Board of Commissioners and for public information. The budget estimates are prepared and made up of the following three parts:

- a. General Budget summary setting forth the aggregate figures of the budget in such manner as to show the balanced relations between the total proposed expenditures and the total anticipated revenues and other means of financing the budget for the fiscal year ending December 31, 2025, contrasted with the actual receipts and disbursement figures for the preceding year and the estimated figures for the current year. The budget of the Corporate Fund, Construction Fund, Capital Improvements Bond Fund, and Stormwater Management Fund has been planned and balanced with receipts on an actual cash basis and expenditures on an accrual basis pursuant to Statutes,
- b. The several estimates, statements and other detail, and the complete financial plan for the budget year, set forth as required in Section 5.3 of the Metropolitan Water Reclamation District Act (Chap. 70, Sec. 2605/5.3, Illinois Compiled Statutes),

- c. Complete draft of the Appropriation Ordinances and Tax Levy Ordinances required to give legal sanction to the appropriation when approved and adopted by the Board of Commissioners of the Metropolitan Water Reclamation District of Greater Chicago.

Your Chairperson of the Committee on Budget and Employment further reports that she has prepared and herewith transmits a draft of Ordinances to be adopted and passed by the Board of Commissioners entitled:

"Annual Appropriation Ordinance of the Metropolitan Water Reclamation District of Greater Chicago for the fiscal year beginning January 1, 2025 and ending December 31, 2025";

and

"An Ordinance for the Levy of Taxes for the fiscal year beginning January 1, 2025 and ending December 31, 2025, upon all taxable property within the territorial limits of the Metropolitan Water Reclamation District of Greater Chicago as said territorial limits exist on January 1, 2025, for the purpose of providing revenues for the Metropolitan Water Reclamation District Retirement Fund and Corporate Fund";

and

"An Ordinance for the Levy of Taxes for the fiscal year beginning January 1, 2025 and ending December 31, 2025, upon all taxable property within the territorial limits of the Metropolitan Water Reclamation District of Greater Chicago as said territorial limits exist on January 1, 2025, for the purpose of providing revenues for the Construction Fund";

and

"An Ordinance for the Levy of Taxes for the fiscal year beginning January 1, 2025 and ending December 31, 2025, to pay the interest on outstanding Bonds and to discharge the principal thereof";

and

"An Ordinance for the Levy of Taxes for the fiscal year beginning January 1, 2025 and ending December 31, 2025, upon all taxable property within the territorial limits of the Metropolitan Water Reclamation District of Greater Chicago as said territorial limits exist on January 1, 2025, for the purpose of providing revenues for the Reserve Claim Fund";

and

"An Ordinance for the Levy of Taxes for the fiscal year beginning January 1, 2025 and ending December 31, 2025, upon all taxable property within the territorial limits of the

Metropolitan Water Reclamation District of Greater Chicago as said territorial limits exist on January 1, 2025, for the purpose of providing revenues for the Stormwater Management Fund”;

Your Chairperson of the Committee on Budget and Employment also recommends the passage of the following Orders:

Ordered: That the foregoing report and budget estimates as transmitted by the Chairperson of the Committee on Budget and Employment, and the following Ordinances submitted with said report, which have not been adopted be and the same are hereby received for the consideration, adoption and passage by the Board of Commissioners of the Metropolitan Water Reclamation District of Greater Chicago:

“Annual Appropriation Ordinance of the Metropolitan Water Reclamation District of Greater Chicago for the fiscal year beginning January 1, 2025 and ending December 31, 2025”;

and

“An Ordinance for the Levy of Taxes for the fiscal year beginning January 1, 2025 and ending December 31, 2025 upon all taxable property within the territorial limits of the Metropolitan Water Reclamation District of Greater Chicago as said territorial limits exist on January 1, 2025, for the purpose of providing revenues for the Metropolitan Water Reclamation District Retirement Fund and Corporate Fund”;

and

“An Ordinance for the Levy of Taxes for the fiscal year beginning January 1, 2025 and ending December 31, 2025, upon all taxable property within the territorial limits of the Metropolitan Water Reclamation District of Greater Chicago as said territorial limits exist on January 1, 2025, for the purpose of providing revenues for the Construction Fund”;

and

“An Ordinance for the Levy of Taxes for the fiscal year beginning January 1, 2025 and ending December 31, 2025, to pay the interest on outstanding Bonds and to discharge the principal thereof”;

and

“An Ordinance for the Levy of Taxes for the fiscal year beginning January 1, 2025 and ending December 31, 2025, upon all taxable property within the territorial limits of the Metropolitan Water Reclamation District of Greater Chicago as said territorial limits exist on January 1, 2025,

Approved as to Form and Legality:

General Counsel

for the purpose of providing revenues for the Reserve Claim Fund”;

and

“An Ordinance for the Levy of Taxes for the fiscal year beginning January 1, 2025 and ending December 31, 2025, upon all taxable property within the territorial limits of the Metropolitan Water Reclamation District of Greater Chicago as said territorial limits exist on January 1, 2025, for the purpose of providing revenues for the Stormwater Management Fund”;

and it is further

Ordered: That upon the adoption and passage of the Appropriation Ordinance and the above mentioned Tax Levy Ordinances, the report of your Chairperson of the Committee on Budget and Employment, together with the complete budget and statements of the assets, the estimated resources and the revenues of the Metropolitan Water Reclamation District of Greater Chicago for the fiscal year 2025 and the Ordinances listed above which are required to give legal sanction to the appropriations when adopted and passed by the Board of Commissioners, the vote shall be entered in the Proceedings of the Board of Commissioners and the ordinances, report, budget and statements shall be printed in book form for easy reference and examination, and for controlling the expenditures by the Board of Commissioners during the fiscal year beginning January 1, 2025 and ending December 31, 2025;

and it is further

Ordered: That the report of your Chairperson of the Committee on Budget and Employment and the Appropriation Ordinances of the Metropolitan Water Reclamation District of Greater Chicago for the year 2025 and the Tax Levy Ordinances listed above which are required to give legal sanction to the appropriation when adopted and passed by the Board of Commissioners together with the summary of estimated revenues and estimated expenditures for the year beginning January 1, 2025 and ending December 31, 2025, shall be published once before January 20, 2025, in a newspaper having general circulation within the territorial limits of the Metropolitan Water Reclamation District of Greater Chicago;

and it is further

Ordered: That the Clerk of the Metropolitan Water Reclamation District of Greater Chicago is hereby authorized and directed to carry out the aforementioned orders and to incur the necessary expenses thereof.

Respectfully submitted,

Chairperson,
Committee on Budget and Employment

TOTAL		33.85 ¢	35.31 ¢	34.17 ¢	34.50 ¢

NOTES: * As Adjusted reflects the 2023 EAV (\$195,688,303,770) estimated to increase 3.5 percent, plus any subsequent supplemental levies.
 ** 2025 reflects an estimated 3.5 percent increase in EAV from the 2024 estimate.
 *** As part of the plan of financing, it is intended and anticipated that tax revenues deposited in the Stormwater Management Fund be transferred to the Bond Redemption & Interest Fund and used to abate taxes levied for this issue.

Adjustment (a)	\$ (13,304.7)		\$ 55.0	\$ (1,251.0)				

(a) Adjustment to NAA required due to current 2024 estimate on collection of property tax levies and PPRT. See the Balance Sheets and Appropriable Revenue statements 01/01/2024 for the Corporate (pages 84 - 85), Construction (pages 92 - 93), and Stormwater Management (pages 95 - 96) Funds. The adjustment is reflected in the 2024 revenues.

(b) This statement is a summary presentation of pages 67 - 69, separating current revenue and NAA from the revenue category.

(c) Ending NAA for one year are revised for accounting adjustments, equity transfers, and changes in the amount of designations to establish beginning net assets for the next year.

(d) Revenue for the Retirement, Bond Redemption & Interest, and Reserve Claim Funds does not include the current year tax levies, which are reflected in the next year's NAA.

NOTES: 1. Amounts may not add up due to rounding.
 2. Departmental appropriation totals for salaries in the Line Item Analysis may differ from those contained in the Position Analysis by a factor identified to adjust for vacancies.
 Additionally, Estimated Expenditure may either exceed Adjusted Appropriation when transfers of funds are anticipated or be less than Expenditure (Committed Budget plus Disbursement) when not all commitments are anticipated to be completed by year-end.
 3. For the M&O Department, Expenditure (Committed Budget plus Disbursement) may exceed Adjusted Appropriation for a specific division as funding is controlled at the M&O Overall department-level.

NOTES: 1. Amounts may not add up due to rounding.
 2. Departmental appropriation totals for salaries in the Line Item Analysis may differ from those contained in the Position Analysis by a factor identified to adjust for vacancies.
 Additionally, Estimated Expenditure may either exceed Adjusted Appropriation when transfers of funds are anticipated or be less than Expenditure (Committed Budget plus Disbursement) when not all commitments are anticipated to be completed by year-end.
 3. For the M&O Department, Expenditure (Committed Budget plus Disbursement) may exceed Adjusted Appropriation for a specific division as funding is controlled at the M&O Overall department-level.

NOTES: 1. Amounts may not add up due to rounding.
 2. Departmental appropriation totals for salaries in the Line Item Analysis may differ from those contained in the Position Analysis by a factor identified to adjust for vacancies.
 Additionally, Estimated Expenditure may either exceed Adjusted Appropriation when transfers of funds are anticipated or be less than Expenditure (Committed Budget plus Disbursement) when not all commitments are anticipated to be completed by year-end.
 3. For the M&O Department, Expenditure (Committed Budget plus Disbursement) may exceed Adjusted Appropriation for a specific division as funding is controlled at the M&O Overall department-level.

NOTES: 1. Amounts may not add up due to rounding.
 2. Departmental appropriation totals for salaries in the Line Item Analysis may differ from those contained in the Position Analysis by a factor identified to adjust for vacancies.
 Additionally, Estimated Expenditure may either exceed Adjusted Appropriation when transfers of funds are anticipated or be less than Expenditure (Committed Budget plus Disbursement) when not all commitments are anticipated to be completed by year-end.
 3. For the M&O Department, Expenditure (Committed Budget plus Disbursement) may exceed Adjusted Appropriation for a specific division as funding is controlled at the M&O Overall department-level.

Rehabilitate Aeration Blowers, SWRP	24-908-21	3,600	2,100	670	Mar 2025
Specialized Railroad Car Rehabilitation, SSA	25-922-21	1,800	900	670	Mar 2025
Modify Air Vent Elevation, DS-M13, SSA	J66679-002	350	350	305	Mar 2025
Lockport Powerhouse Buoy Barrier, SSA	25-605-21	235	235	274	Apr 2025
Roof Rehabilitation, Various Locations	25-612-21	4,000	3,000	639	Apr 2025
Remove and Replace Pavement, Various Locations	25-651-21	4,000	3,000	639	Apr 2025
Calumet Union Ditch Wing Wall and Bank Restoration, CSA	25-680-21	150	150	274	Apr 2025
SEPA No. 3 Paver Walkway Improvement, CSA	J66679-05	200	200	274	Apr 2025
Roof Replacement of Building 29, CWRP	J68843-033	324	324	90	Apr 2025
Lagoons 4 and 6 Slope Regrade, CALSMA	J68850-003	500	500	61	Apr 2025
HVAC Improvements to UV Building and Switchgear Building, OWRP	22-093-2M	3,000	581	501	May 2025
Permeable Paver Restoration, EWRP	25-721-21	150	150	60	May 2025
Fence Installation Phase 2, HPWRP	25-724-21	300	300	60	May 2025
Rehabilitation of Algae Removal System, KWRP	25-725-21	270	270	213	May 2025
Rehabilitate Roads and Floor at the Gloria Alitto Majewski Reservoir, KWRP	J67783-47	300	300	91	May 2025
Access Platform Installation, KWRP	J67785-09	200	200	183	May 2025
Replace Epoxy Floor, KWRP	J67785-10	250	250	183	May 2025
Exhaust Fan System Replacements, NSA	J67795-016	300	300	122	May 2025
Pump and Blower Building Floor Modifications, CWRP	J68843-032	370	370	91	May 2025
Fox River Water Reclamation District (FRWRD) Operations and Maintenance Building Replacement	21-IGA-21	416	23	399	Jun 2025
Underground Storage Tank Improvements, Various Locations	22-602-21	900	150	943	Jun 2025
TARP Mechanical Equipment Improvements, CWRP	23-801-21	14,500	1,750	943	Jun 2025

Awards in 2025 (continued)

Project Name	Project Number	Est. Construction Cost	2025 Appropriation	Duration (days)	Est. Award Date
Centrifuge Rehabilitation, SWRP	24-902-21	\$ 3,900	\$ 1,300	943	Jun 2025
Building Management System Improvements, CWRP and EWRP	25-629-21	6,000	3,500	578	Jun 2025
Roof Rehabilitation, EWRP	25-727-21	2,300	2,300	121	Jun 2025
Replace Ostara Process Controls, SWRP	25-929-21	1,200	1,200	152	Aug 2025
Low Voltage Pump and Blower Switchgear and Aerated Grit Motor Control Center Replacement, SWRP	19-156-2E	6,750	379	492	Sep 2025
HVAC and Sludge Pump Improvements, Various Locations	25-624-21	20,500	500	1,217	Sep 2025
Installation of Shaftless Screw Conveyors in the Aerated Grit Tanks, CWRP	25-821-21	8,200	200	790	Sep 2025
Remove and Replace One 23XL Chiller, Main Office Building	22-404-21	700	350	180	Oct 2025
Trash Rake Improvements, MSPS	25-923-21	2,200	200	456	Oct 2025
Rehabilitate One Electric Motor, SWRP	25-926-21	600	100	608	Oct 2025
Centennial Fountain Stair Restoration, SSA	J66631-26	210	210	91	Oct 2025
Railroad Track Improvements, SSA	20-907-21	750	750	365	Nov 2025
Total 2025 Awards		\$ 122,714	\$ 37,500		

Projects Under Construction

Project Name	Project Number	Est. Construction Cost	2025 Appropriation	Duration (days)	Award Date
Biogas Combined Heat and Power System, EWRP	20-415-2S	\$ 10,596	\$ 6,096	848	Jan 2024
Rehabilitate Digester Covers, Various Locations	23-684-22D	751	500	699	Feb 2024
Biosolids Management Strategy, SWRP	23-RFP-19	1,500	950	903	Jul 2024
Replacement of Telemetry, Various Locations	20-861-2E	3,154	2,964	353	Sep 2024
Remove and Replace Pavement, Various Locations	24-651-21	1,076	1,076	437	Sep 2024
Mechanical Process Improvements, Various Locations	24-601-21	18,000	10,500	790	Nov 2024
HVAC System Replacement, Various Locations	24-638-21	19,144	9,442	1,155	Nov 2024
New Entrance at SEPA No. 3, CSA	J66679-03	350	350	425	Nov 2024
Centrifuge Improvements at Post-Digestion Centrifuge Facility, SWRP	22-903-21	5,400	2,400	760	Dec 2024
Bathroom Renovation, SWRP	24-110-21	380	350	360	Dec 2024
Roof Rehabilitation, Various Locations	24-612-22	2,400	2,400	360	Dec 2024
Truck Scale Replacements, Various Locations	24-695-22	1,579	1,579	377	Dec 2024
Distributed Control System Server Room Improvements, OWRP	J67710-04	40	40	61	Dec 2024
Total Projects Under Construction		\$ 64,369	\$ 38,647		

Projects Under Development

Project Name	Project Number	Est. Construction Cost	2025 Appropriation	Duration (days)	Est. Award Date
Furnish, Deliver, and Install Turbo Blowers, EWRP and KWRP	23-704-21	\$ 2,500	\$ —	364	Jan 2026
Fire Suppression System for Generators, LPH	26-607-21	150	—	333	Feb 2026
Lighting Improvements, CSA	J68823-003	500	—	333	Feb 2026
Elevator Upgrades, KWRP and OWRP	21-701-21	4,000	—	1,036	Mar 2026
Lockport Turbine Generator Rehabilitation, SSA	25-601-21	4,200	—	670	Mar 2026
Building Splash Guard, LPH	26-610-21	2,000	—	305	Mar 2026
Expand Building Automation System, Main Office Building	J15090-082	1,500	—	670	Mar 2026
Furnish, Deliver, and Install 480V Power Feeds to Aeration Batteries A, B, and C, CWRP	J68823-001	250	—	365	Mar 2026
Edelweiss Slope Restoration, CSA	J66679-06	200	—	274	Apr 2026
6th Street Construction and Utility Tunnel Rehabilitation and Various Roof Replacements, CWRP	19-257-2D	5,000	—	426	May 2026
Discharge Valve Rehabilitation on Main Sewage Pumps 1-4, SWRP	25-921-21	1,000	—	609	May 2026
Primary Tank Improvements, SWRP	25-924-21	250	—	578	Jun 2026
Furnish, Deliver, and Install Protective Relays, LPH	25-621-21	100	—	548	Jul 2026
Rehabilitation of the Overhead Bridge Crane in the Discharge Valve Chamber, MSPS	21-903-21	1,100	—	456	Oct 2026
Replace Coarse Screens, OWRP	22-702-21	7,800	—	456	Oct 2026
Rehabilitation of Gates and Actuators for Wheel Gates G3 and G4, MSPS	23-903-21	4,000	—	1,187	Oct 2026
Gate Control Equipment Upgrade at TARP Control Structures, KWRP, NSA	06-358-2M	3,000	—	515	Dec 2026
Furnish, Deliver, and Install AC Drives for South Post-Digestion Centrifuges, SWRP	25-925-21	1,050	—	699	Feb 2027
Transformer Fire Barrier, LPH	J66634-04	175	—	305	Mar 2027
Low-Water Crossing Removal, LPH	27-615-21	800	—	274	Apr 2027
Digester Rehabilitation, HPWRP	19-541-2P	6,000	—	512	Jun 2027
Replacement of Locomotive Terminal Building, SWRP	18-143-2D	8,000	—	532	Dec 2027
Stickney Effluent Reuse Line, SSA	14-107-2S	1,100	—	192	Apr 2028
Fox River Water Reclamation District (FRWRD) Biosolids Gas Utilization	21-IGA-20	887	—	589	Sep 2028
Total Future Awards		\$ 55,562

 2. Estimated Expenditure may either exceed Adjusted Appropriation when transfers of funds are anticipated or be less than Expenditure (Committed Budget plus Disbursement) when not all commitments are anticipated to be completed by year-end.

Capital Improvements Bond Fund Program

Awards in 2025

Project Name	Project Number	Est. Construction Cost	Duration (days)	Est. Award Date
Chemical Phosphorus Removal, OWRP	20-087-3P	\$ 14,000	684	Jan 2025
Switchgear and Motor Control Center Replacement, KWRP	23-379-3E	12,000	355	Jan 2025
Rehabilitation of Service Tunnel Expansion Joints and Replacement of Road E, KWRP	24-384-3D	4,500	970	Feb 2025
Phosphorus Removal, KWRP	19-375-3P	10,300	316	Mar 2025
Upper Des Plaines Intercepting Sewer 11D Rehabilitation, NSA	12-369-3S	7,750	402	Apr 2025
TARP Mainstream Dropshaft DS-M73E at Armitage Avenue, SSA	20-160-4H	12,600	347	Apr 2025
Rehabilitation of Pump and Blower House, CWRP	19-255-3D	18,000	692	May 2025
North Side Sludge Pipeline Replacement - Section 2, OWRP	24-098-3S	2,000	352	May 2025
Battery E Activated Sludge Facility, OWRP	21-092-3P	367,751	981	Jun 2025
Low Voltage Switchgear Replacement, MSPS	19-154-3E	9,000	682	Sep 2025
North and South Guard Valve Chambers Shotcrete Lining Rehabilitation, MSPS	24-176-3H	3,000	704	Sep 2025
West Side Intercepting Sewer No. 2 Rehabilitation, SSA	20-162-3S	3,000	492	Oct 2025
Southwest Side Intercepting Sewer No. 15, 16, and 17B Rehabilitation, SSA	23-173-3S	12,000	564	Oct 2025
Install Pipe Casing and Utilities Under Rail Road Tracks to Dewatering Facility, CWRP	24-269-3P	12,000	443	Oct 2025
Total 2025 Awards		\$ 487,901		

Projects Under Construction

Projects under construction in the Capital Improvements Bond Fund were appropriated in prior years using the full encumbrance (obligation) method of budgetary accounting. The construction contract award amount and the full project duration are provided in this table.

Project Name	Project Number	Est. Construction Cost	Duration (days)	Award Date
Mainstream TARP Pumps Rehabilitation at the Stickney Water Reclamation Plant	18-144-3M	\$ 23,558	2,124	Apr 2021
Furnish, Deliver, and Install Coarse Screens, SWRP	20-903-31	4,188	1,411	May 2021
Central Boiler Facility and Electrical Updates, Hanover Park Water Reclamation Plant, Rebid	19-542-3MR	14,046	1,412	Nov 2021
Chemical Addition Backup System, Stickney Water Reclamation Plant	19-159-3P	8,777	1,102	Feb 2022
Furnish, Deliver, and Install Disc Filters at the Egan Water Reclamation Plant	18-702-31	9,143	1,043	Mar 2022
Rehabilitation of Steel Spandrel Beams of Pump and Blower House, O'Brien Water Reclamation Plant	15-069-3D	22,324	1,518	Apr 2022
Sludge Pumping Improvements, Various Locations	21-603-31	8,595	1,108	Apr 2022
North Side Sludge Pipeline Replacement - Section 1, NSA, Rebid	07-027-3SR	27,897	1,173	Jun 2022
Roof Replacement of the Lue-Hing M&R Complex, Stickney Water Reclamation Plant	17-135-3V	11,379	844	Dec 2022
Calumet 18E Relief Connecting Structure and Sewer Work, CSA	21-262-3S	3,108	857	Dec 2022
A/B and C/D Service Tunnel Rehabilitation - Phase Three, Stickney Water Reclamation Plant, Rebid	16-127-3DR	28,993	1,056	Feb 2023
Boilers 3, 4, 5, and MCC Replacement, Stickney Water Reclamation Plant, Rebid	19-155-3MR	21,884	1,284	May 2023
Upper Des Plaines Intercepting Sewer 14B Rehabilitation, NSA, Rebid	06-360-3SR	36,112	1,015	Jun 2023
Phosphorus Removal Modifications to Battery D, O'Brien Water Reclamation Plant	21-091-3P	15,311	752	Jun 2023
Upper Des Plaines Intercepting Sewer 11D, Ext. C Rehabilitation, NSA	11-404-3S	8,416	499	Sep 2023
Digester Rehabilitation and Gas Piping Replacement - Phase II, Stickney Water Reclamation Plant	18-148-3P	52,358	2,245	Nov 2023
Westchester Pumping Station Relief Sewer, SSA	21-168-3S	6,777	565	Dec 2023
North Shore 1 Rehabilitation, NSA	10-047-3S	44,991	967	Jan 2024
Upgrade Wilmette Lift Station, NSA	19-083-3P	1,839	316	Mar 2024
Rehabilitation of Elevated Deck and Boat Dock at North Branch Pumping Station, NSA	22-094-3D	22,594	878	Mar 2024
Overburden Removal at Location of Battery E, OWRP	23-098-3P	7,384	390	Sep 2024
39th Street Conduit Rehabilitation - Phase II, SSA	01-103-AS	39,418	663	Oct 2024
Battery A Improvements and Battery B Installation of Mechanical Mixers, SWRP	08-174-3D	54,500	877	Oct 2024
Furnish and Install Odor Control System at Thornton Reservoir	17-273-4P	3,888	322	Nov 2024
Salt Creek Intercepting Sewer No. 3 Rehabilitation, SSA	20-161-3S	17,000	553	Nov 2024
Total Projects Under Construction		\$ 494,480		

Projects Under Development

Project Name	Project Number	Est. Construction Cost	Duration (days)	Est. Award Date
TARP Control System Replacement, CSA, NSA, SSA	19-856-3E	\$ 25,000	503	Jan 2026
Kirie - Egan Solids Pipeline Rehabilitation Section No. 2, NSA	23-417-3S	12,500	275	Apr 2026
Decommissioning of Battery B and C Imhoff Tanks and Skimming Tanks 9-16, SWRP	19-152-3P	10,000	513	Jul 2026
Additional Grit Removal Tank and Construction of New Plant Entrance, LWRP	19-717-3P	6,000	553	Nov 2026
Calumet Intercepting Sewer No. 13 Rehabilitation, CSA	23-264-3S	14,500	65	Nov 2026
Replacement of TARP Coarse Screen Hoist and Installation of Low-Level Interceptor Screen, CWRP	24-278-3M	6,000	445	Dec 2026
Switchgear and Motor Control Center Replacement, CWRP	19-258-3E	23,000	632	Jan 2027
Replacement of Dewatering Facility, CWRP	24-268-3P	65,000	1,453	Jan 2027
Kirie - Egan Solids Pipeline Rehabilitation Section No. 3, NSA	23-418-3S	13,500	562	Jun 2027
Howard Avenue Junction Chamber Modification to Upper Des Plaines Intercepting Sewer No. 6, SSA	24-175-3S	2,000	457	Jun 2027
Harms Road Intercepting Sewer Extension No. 1 Rehabilitation, NSA	23-096-3S	9,000	564	Aug 2027
Battery C Final Settling Tanks, Rehabilitation of Concrete, SWRP	16-129-3D	20,000	513	Sep 2027
Gravity Belt Thickener Installation and Building Rehabilitation, CWRP	22-263-3P	20,000	352	Sep 2027
Calumet Intercepting Sewer No. 17K, 19C Relief and 18H Ext. B Rehabilitation, CSA	23-265-3S	6,500	562	Nov 2027
Plant Improvements, HPWRP	18-540-3P	20,000	683	Jan 2028
Gloria Alitto Majewski Reservoir Rehabilitation, NSA	22-376-3P	25,000	353	Mar 2028
Phosphorus Removal, EWRP	19-415-3P	30,000	452	Apr 2028
McCook Reservoir Stage 2 Final Reservoir Preparation, SSA	17-132-4F	24,796	482	May 2028
Switchgear Replacement at HPWRP and Motor Control Center Replacement at Upper DuPage Reservoir, NSA	19-543-3E	9,750	682	May 2028
Rehabilitation of Service Tunnel Expansion Joints, OWRP	24-006-3D	3,500	968	Jun 2028
Install Lagoon and Upgrade Drainage and Riser System at Fisher Farm, HPWRP	24-545-3P	13,300	1,453	Jun 2028
Kirie - Egan Solids Pipeline Rehabilitation Section No. 4, NSA	23-419-3S	12,500	562	Aug 2028
Scum System Improvements, SWRP	24-177-3P	30,000	942	Aug 2028
West Side Intercepting Sewer No. 3-D Rehabilitation, SSA	24-174-3S	19,000	562	Oct 2028
Lemont Intercepting Sewer No. 4 Rehabilitation, CSA	23-266-3S	11,000	562	Nov 2028
Fermentation and Ancillary Facilities for Biological Phosphorus Removal Phase I, OWRP	20-085-3P	100,000	802	Dec 2028
Battery B Final Settling Tanks, Rehabilitation of Concrete, SWRP	16-128-3D	20,000	513	Feb 2029
Replacement of Devon Avenue Instream Aeration Station, NSA	24-099-3P	13,000	942	May 2029
Replacement of Scale House, Scale, Shop and Storage Buildings, and City Water with Canal Water Service, LASMA	24-185-3D	3,500	970	Jun 2029
Convert WASSTRIP Tanks to Waste Activated Sludge Thickening Tanks and Install Sludge Screen, SWRP	24-178-3P	15,000	1,194	Jul 2029
Install Drain Tile at Blower Building and Porous Pavement Parking Lot, CWRP	24-270-3P	10,000	956	Jul 2029
Calumet Intercepting Sewer Nos. 2, 3, 4, and 10 Rehabilitation, CSA	24-267-3S	30,000	562	Nov 2029
Total Future Awards		\$ 623,346		
Cumulative 2025 and Future Awards		\$ 1,111,247		

Note: All cost figures are in thousands of dollars.

* The Capital Improvements Bond Fund is budgeted and accounted for on an obligation basis.
 ** The appropriation in the Capital Improvements Bond Fund is adjusted to carry forward open value of contracts from the prior year.
 NOTES: 1. Amounts may not add up due to rounding.
 2. Estimated Expenditure may exceed Adjusted Appropriation when transfers of funds are anticipated or be less than Expenditure (Committed Budget plus Disbursement) when not all commitments are anticipated to be completed by year-end.
 3. The Capital Improvements Bond Fund appropriation is controlled on the Summary Object level.

Awards in 2025						
Project Name	Project Number	Est. Construction Cost	2025 Appropriation	Duration (days)	Est. Award Date	
NatureNook Pilot Project 1 in Burnham	24-279-5F	\$ 1,228	\$ 1,228	364	Jan 2025	
Public Library Permeable Parking Lot in Northlake	24-IGA-15	573	573	105	Jan 2025	
Green Alley Project in Hillside	24-IGA-17	325	325	130	Jan 2025	
LeMoynes Street and Maypole Avenue Underground Storage Projects in Chicago	24-IGA-19	6,000	6,000	217	Jan 2025	
IDOT 55th Street Relief Sewer - West Phase II in Countryside	24-IGA-21	1,622	—	150	Jan 2025	
I-290 Frontage Road Sewer and Outfall in Maywood	24-IGA-23	5,707	2,000	135	Jan 2025	
Flood Control Project on Willow Road at McDonald Creek Tributary A in Prospect Heights, Illinois	20-IGA-23	1,800	1,800	307	Feb 2025	
Public Library Green Roof in Blue Island	24-IGA-06	306	306	100	Feb 2025	
Town Center Green Infrastructure Improvements in Willow Springs	24-IGA-16	1,085	1,085	100	Feb 2025	
Green Alley Project 2 in Forest Park	24-IGA-09	313	313	104	Apr 2025	
Village Hall Green Parking Lot in Hoffman Estates	24-IGA-12	472	472	100	Apr 2025	
Green Alley Project in North Riverside	24-IGA-14	689	689	100	Apr 2025	
Streambank Stabilization Project along Tinley Creek	19-IGA-22	3,800	3,700	203	May 2025	
Citation Lake Stormwater Improvements in Northfield Township	23-IGA-44	3,000	1,500	390	May 2025	
17th and Lexington Public Parking Lot Improvements in Broadview	24-IGA-07	360	360	100	May 2025	
Green Parking Lot Improvements in Brookfield	24-IGA-08	192	192	100	May 2025	
Green Alley Program in Markham	24-IGA-13	469	469	100	May 2025	
Central Park Stormwater Detention Basin and Separate Storm Sewer Improvements in Harvey	18-249-AF	9,849	527	452	Jun 2025	
Thorn Ditch Flood Mitigation Project in South Holland	24-IGA-05	5,860	1,500	504	Jun 2025	
Pacific Avenue and Washington Street Green Infrastructure in Franklin Park	24-IGA-10	214	214	100	Jun 2025	
Flood Control Project on Prairie Creeks, NSA	12-056-5F	33,941	1,221	713	Sep 2025	
Stormwater Storage at Community High School District 218 Administration Sports Field and Storm Sewer Improvements in Oak Lawn	23-IGA-11	3,500	3,150	393	Sep 2025	
Flood Control Project on Calumet-Sag Tributary C in Midlothian and Crestwood	21-IGA-18	3,780	1,000	244	Nov 2025	
Flood Control Project for the Washington Street Area in Blue Island	21-IGA-28	5,700	900	294	Nov 2025	
Roberts Road Drainage Improvements in Palos Hills, Illinois	23-IGA-12	3,500	—	241	Nov 2025	
Flood Control Project in the Worth Woods Subdivision in Worth	14-256-5F	2,500	336	450	Dec 2025	
Total 2025 Awards		\$ 96,785	\$ 29,860			

Projects Under Construction

Project Name	Project Number	Est. Construction Cost	2025 Appropriation	Duration (days)	Award Date
* Lyons and McCook Levee Improvements Project	13-199-3F	\$ 2,545	\$ 2,545	2,605	Sep 2018
Acquisition of Flood-Prone Properties Des Plaines Phase IV, NSA	20-IGA-24	5,000	2,300	987	Oct 2022
Acquisition of Flood-Prone Properties in Lyons, SSA	21-IGA-24	3,000	580	1,165	Oct 2022

Metropolitan Water Reclamation District of Greater Chicago Historical Information And Milestones

- 1837** Chicago was incorporated as a city. The city's primary source of drinking water is Lake Michigan. Due to poor drainage and discharges to Lake Michigan, water-borne diseases plagued the city throughout the 1800s.
- 1856** Sewers were constructed to collect the city's wastewater. These sewers emptied into the Chicago River, ultimately becoming a health hazard.
- 1885** A torrential rainstorm flushed pollution from the river into Lake Michigan prompting public concern for ways to safeguard the quality of the drinking water.
- 1886** A Drainage and Water Supply Commission was created to study the growing problem of contamination of the city's water supply.
- 1889** Illinois Legislature passed an act enabling the establishment of the Sanitary District of Chicago to keep sewage pollution out of Lake Michigan. Referendum passed creating the Sanitary District of Chicago.
- 1892** Ground was broken on the 28-mile Main Channel of the Sanitary and Ship Canal. The canal would reverse the flow of the Chicago River by linking it to the Des Plaines River, and thus prevent pollution of Lake Michigan by the river.
- 1900** Main Channel of the Sanitary and Ship Canal opened.
- 1907** Main Channel Extension including Lockport Powerhouse and Lock completed.
- 1910** North Shore Channel completed.
- 1919** District's Board of Commissioners passed an ordinance committing the District to the construction and operation of treatment plants.
- 1922** The 16-mile Calumet-Sag Channel became operational; Calumet Treatment Plant placed into operation.
- 1928** North Side Treatment Plant placed into operation.
- 1930** U.S. Supreme Court Decree issued reducing diversion of Lake Michigan in steps. Effective January 1, 1939, diversion reduced to 1,500 cubic feet per second; West Side Treatment Plant placed into operation.
- 1939** Southwest Treatment Plant placed into operation.
- 1949** West and Southwest Treatment Plants combined.
- 1955** District's name changed to the Metropolitan Sanitary District of Greater Chicago (MSDGC); the Chicago Sewage Disposal System named one of the Seven Wonders of Modern Engineering by the American Society of Civil Engineers (ASCE), recognizing the size of the system, including intercepting sewers, treatment plants, and waterways.
- 1956** Referendum, enabled by legislation, passed adding 412 square miles to the District.
- 1961** Lemont Treatment Plant placed into operation.
- 1963** Hanover Park Treatment Plant placed into operation.
- 1969** Board adopted the Sewage and Waste Control Ordinance, prohibiting any waste discharge into Lake Michigan.
- 1971** Fulton County "Prairie Plan" began whereby abandoned strip-mines were reclaimed into agriculturally productive land; won "Special Civil Engineering Achievement Award" in 1974 from the ASCE.
- 1972** District adopted the Tunnel and Reservoir Plan (TARP) as recommended by a committee of representatives from the state, city, county, and MSDGC. The plan provided for the collection, transportation, storage, and treatment of combined rainwater and sewage that in periods of heavy rain overflowed into waterways, underpasses, and basements.
- 1975** Construction began on the 31-mile Mainstream tunnel system; Egan Treatment Plant placed into operation.
- 1977** Construction began on the Calumet tunnel system.
- 1980** O'Hare Treatment Plant (later renamed Kirie Water Reclamation Plant) and Upper Des Plaines TARP tunnel system placed into operation.
- 1985** Mainstream tunnel system placed into operation, capable of storing one billion gallons of combined sewage and stormwater; TARP Mainstream System, Phase I, received award for "Outstanding Civil Engineering Achievement" from the ASCE.
- 1986** TARP received awards for "Outstanding Civil Engineering Achievement" and "Outstanding Civil Engineering Achievement of Past 100 Years in Illinois"; 9.2-mile Calumet tunnel system placed into operation.
- 1988** Water quality improvements recognized as causing increased real estate development along the waterway system; construction began on the Des Plaines TARP tunnel.
- 1989** District celebrated its 100th anniversary. As part of the Centennial Celebration, the District changed its name to the Metropolitan Water Reclamation District of Greater Chicago and dedicated the Centennial Fountain.
- 1990** Army Corps of Engineers and the District began construction of the O'Hare-CUP Reservoir, the first of three reservoirs in the TARP program.
- 1992-1994** District's five Sidestream Elevated Pool Aeration Stations (SEPA) completed along the Calumet River system. These stations add oxygen to the waterways to enhance the aquatic environment. The District received "Outstanding Civil Engineering Achievement" in 1994 by ASCE for these projects.
- 1998** O'Hare-CUP Reservoir placed into operation, capable of storing 350 million gallons of combined sewage and stormwater; North Branch tunnel placed into operation.
- 1999** Des Plaines tunnel placed into operation; construction began on the McCook Reservoir.
- 2000** District celebrated the 100th anniversary of the reversal of the Chicago River and completed a century of protecting Chicago's water environment; construction began on Thornton Transitional Reservoir.
- 2003** Construction began on the major capital improvement program for the Calumet, North Side, and Stickney Water Reclamation Plants.
- 2004** By an act of the Illinois Legislature, the District became responsible for stormwater management in Cook County.
- 2006** TARP Phase I 109-mile tunnel system completed; all four TARP tunnel systems in operation.
- 2007** District celebrated 100th anniversary of the Lockport Powerhouse and Dam.
- 2009** Construction of the Thornton Composite Reservoir began.
- 2010** District celebrated the 100th anniversary of the North Shore Channel.
- 2012** North Side Water Reclamation Plant renamed Terrence J. O'Brien Water Reclamation Plant.
- 2013** Board adopted the Watershed Management Ordinance, establishing uniform and minimum stormwater regulations throughout Cook County.
- 2014** District celebrated its 125th anniversary.
- 2015** Disinfection facility at the Calumet Water Reclamation Plant placed into operation. Thornton Composite Reservoir placed into operation.
- 2016** Phosphorus recovery facility placed into operation at the Stickney Water Reclamation Plant; implemented an ultraviolet disinfection process at the O'Brien Water Reclamation Plant; Board adopted the Resource Recovery Ordinance, which provides legal framework for resource recovery initiatives.
- 2017** Phase I of the McCook Reservoir completed.

BELOW:

New landscaping on the shore of the Cal-Sag Channel east of Kedzie Avenue in Robbins is part of the first phase of the Robbins Heritage Park and Midlothian Creek Restoration Project.

The project will help address overbank flooding through a new stormwater park and pond, along with improvements to Midlothian Creek and an overflow channel that connects to the Cal-Sag Channel. The Robbins Heritage Park will include a naturalized wetland detention area and channel improvements to resemble a park-like setting in central Robbins, along with bioswales and a rain garden.

ON THE COVER:

MWRD trades worked to repair a pump in the Southwest Pump and Blower Building at the Stickney Water Reclamation Plant.

The six massive pumps in this facility with 3,000 to 3,500 horsepower motors can each convey up to 240 million gallons of water per day. This critical step in the treatment process lifts water up from the sewer level to the ground so it can flow by gravity through the treatment processes in the rest of the plant.

Metropolitan Water Reclamation District of Greater Chicago

100 East Erie Street • Chicago, Illinois 60611-3154

Adjustment (a)	\$ (13,304.7)		\$ 55.0	\$ (1,251.0)				

(a) Adjustment to NAA required due to current 2024 estimate on collection of property tax levies and PPRT. See the Balance Sheets and Appropriable Revenue statements 01/01/2024 for the Corporate (pages 84 - 85), Construction (pages 92 - 93), and Stormwater Management (pages 95 - 96) Funds. The adjustment is reflected in the 2024 revenues.

(b) This statement is a summary presentation of pages 67 - 69, separating current revenue and NAA from the revenue category. 2025 Net Assets Appropriable includes prior year uncollected property taxes.

(c) Ending NAA for one year are revised for accounting adjustments, equity transfers, and changes in the amount of designations to establish beginning net assets for the next year.

(d) Revenue for the Retirement, Bond Redemption & Interest, and Reserve Claim Funds does not include the current year tax levies, which are reflected in the next year's NAA.

Capital Improvements Bond Fund Program

Awards in 2025				
Project Name	Project Number	Est. Construction Cost	Duration (days)	Est. Award Date
Switchgear and Motor Control Center Replacement, KWRP	23-379-3E	\$ 12,000	355	Jan 2025
Chemical Phosphorus Removal, OWRP	20-087-3P	16,789	683	Feb 2025
Rehabilitation of Service Tunnel Expansion Joints and Replacement of Road E, KWRP	24-384-3D	4,500	970	Feb 2025
Phosphorus Removal, KWRP	19-375-3P	10,300	316	Mar 2025
Upper Des Plaines Intercepting Sewer 11D Rehabilitation, NSA	12-369-3S	7,750	402	Apr 2025
TARP Mainstream Dropshaft DS-M73E at Armitage Avenue, SSA	20-160-4H	12,600	347	Apr 2025
Rehabilitation of Pump and Blower House, CWRP	19-255-3D	18,000	692	May 2025
North Side Sludge Pipeline Replacement - Section 2, OWRP	24-098-3S	2,000	352	May 2025
Battery E Activated Sludge Facility, OWRP	21-092-3P	367,751	981	Jun 2025
Low Voltage Switchgear Replacement, MSPS	19-154-3E	9,000	682	Sep 2025
North and South Guard Valve Chambers Shotcrete Lining Rehabilitation, MSPS	24-176-3H	3,000	704	Sep 2025
West Side Intercepting Sewer No. 2 Rehabilitation, SSA	20-162-3S	3,000	492	Oct 2025
Southwest Side Intercepting Sewer No. 15, 16, and 17B Rehabilitation, SSA	23-173-3S	12,000	564	Oct 2025
Install Pipe Casing and Utilities Under Rail Road Tracks to Dewatering Facility, CWRP	24-269-3P	12,000	443	Oct 2025
Total 2025 Awards		\$ 490,690		

Projects Under Construction

Projects under construction in the Capital Improvements Bond Fund were appropriated in prior years using the full encumbrance (obligation) method of budgetary accounting. The construction contract award amount and the full project duration are provided in this table.

Project Name	Project Number	Est. Construction Cost	Duration (days)	Award Date
Mainstream TARP Pumps Rehabilitation at the Stickney Water Reclamation Plant	18-144-3M	\$ 23,558	2,124	Apr 2021
Furnish, Deliver, and Install Coarse Screens, SWRP	20-903-31	4,188	1,411	May 2021
Central Boiler Facility and Electrical Updates, Hanover Park Water Reclamation Plant, Rebid	19-542-3MR	14,046	1,412	Nov 2021
Chemical Addition Backup System, Stickney Water Reclamation Plant	19-159-3P	8,777	1,102	Feb 2022
Furnish, Deliver, and Install Disc Filters at the Egan Water Reclamation Plant	18-702-31	9,143	1,043	Mar 2022
Rehabilitation of Steel Spandrel Beams of Pump and Blower House, O'Brien Water Reclamation Plant	15-069-3D	22,324	1,518	Apr 2022
Sludge Pumping Improvements, Various Locations	21-603-31	8,595	1,108	Apr 2022
North Side Sludge Pipeline Replacement - Section 1, NSA, Rebid	07-027-3SR	27,897	1,173	Jun 2022
Roof Replacement of the Lue-Hing M&R Complex, Stickney Water Reclamation Plant	17-135-3V	11,379	844	Dec 2022
Calumet 18E Relief Connecting Structure and Sewer Work, CSA	21-262-3S	3,108	857	Dec 2022
A/B and C/D Service Tunnel Rehabilitation - Phase Three, Stickney Water Reclamation Plant, Rebid	16-127-3DR	28,993	1,056	Feb 2023
Boilers 3, 4, 5, and MCC Replacement, Stickney Water Reclamation Plant, Rebid	19-155-3MR	21,884	1,284	May 2023
Upper Des Plaines Intercepting Sewer 14B Rehabilitation, NSA, Rebid	06-360-3SR	36,112	1,015	Jun 2023
Phosphorus Removal Modifications to Battery D, O'Brien Water Reclamation Plant	21-091-3P	15,311	752	Jun 2023
Upper Des Plaines Intercepting Sewer 11D, Ext. C Rehabilitation, NSA	11-404-3S	8,416	499	Sep 2023
Digester Rehabilitation and Gas Piping Replacement - Phase II, Stickney Water Reclamation Plant	18-148-3P	52,358	2,245	Nov 2023
Westchester Pumping Station Relief Sewer, SSA	21-168-3S	6,777	565	Dec 2023
North Shore 1 Rehabilitation, NSA	10-047-3S	44,991	967	Jan 2024
Upgrade Wilmette Lift Station, NSA	19-083-3P	1,839	316	Mar 2024
Rehabilitation of Elevated Deck and Boat Dock at North Branch Pumping Station, NSA	22-094-3D	22,594	878	Mar 2024
Overburden Removal at Location of Battery E, OWRP	23-098-3P	7,384	390	Sep 2024
39th Street Conduit Rehabilitation - Phase II, SSA	01-103-AS	39,418	663	Oct 2024
Furnish and Install Odor Control System at Thornton Reservoir	17-273-4P	3,065	329	Oct 2024
Salt Creek Intercepting Sewer No. 3 Rehabilitation, SSA	20-161-3S	19,873	553	Nov 2024
Battery A Improvements and Battery B Installation of Mechanical Mixers, SWRP	08-174-3D	56,449	877	Dec 2024
Total Projects Under Construction		\$ 498,479		

Projects Under Development

Project Name	Project Number	Est. Construction Cost	Duration (days)	Est. Award Date
TARP Control System Replacement, CSA, NSA, SSA	19-856-3E	\$ 25,000	503	Jan 2026
Kirie - Egan Solids Pipeline Rehabilitation Section No. 2, NSA	23-417-3S	12,500	275	Apr 2026
Decommissioning of Battery B and C Imhoff Tanks and Skimming Tanks 9-16, SWRP	19-152-3P	10,000	513	Jul 2026
Additional Grit Removal Tank and Construction of New Plant Entrance, LWRP	19-717-3P	6,000	553	Nov 2026
Calumet Intercepting Sewer No. 13 Rehabilitation, CSA	23-264-3S	14,500	65	Nov 2026
Replacement of TARP Coarse Screen Hoist and Installation of Low-Level Interceptor Screen, CWRP	24-278-3M	6,000	445	Dec 2026
Switchgear and Motor Control Center Replacement, CWRP	19-258-3E	23,000	632	Jan 2027
Replacement of Dewatering Facility, CWRP	24-268-3P	65,000	1,453	Jan 2027
Kirie - Egan Solids Pipeline Rehabilitation Section No. 3, NSA	23-418-3S	13,500	562	Jun 2027
Howard Avenue Junction Chamber Modification to Upper Des Plaines Intercepting Sewer No. 6, SSA	24-175-3S	2,000	457	Jun 2027
Harms Road Intercepting Sewer Extension No. 1 Rehabilitation, NSA	23-096-3S	9,000	564	Aug 2027
Battery C Final Settling Tanks, Rehabilitation of Concrete, SWRP	16-129-3D	20,000	513	Sep 2027
Gravity Belt Thickener Installation and Building Rehabilitation, CWRP	22-263-3P	20,000	352	Sep 2027
Calumet Intercepting Sewer No. 17K, 19C Relief and 18H Ext. B Rehabilitation, CSA	23-265-3S	6,500	562	Nov 2027
Plant Improvements, HPWRP	18-540-3P	20,000	683	Jan 2028
Gloria Alitto Majewski Reservoir Rehabilitation, NSA	22-376-3P	25,000	353	Mar 2028
Phosphorus Removal, EWRP	19-415-3P	30,000	452	Apr 2028
McCook Reservoir Stage 2 Final Reservoir Preparation, SSA	17-132-4F	24,796	482	May 2028
Switchgear Replacement at HPWRP and Motor Control Center Replacement at Upper DuPage Reservoir, NSA	19-543-3E	9,750	682	May 2028
Rehabilitation of Service Tunnel Expansion Joints, OWRP	24-006-3D	3,500	968	Jun 2028
Install Lagoon and Upgrade Drainage and Riser System at Fisher Farm, HPWRP	24-545-3P	13,300	1,453	Jun 2028
Kirie - Egan Solids Pipeline Rehabilitation Section No. 4, NSA	23-419-3S	12,500	562	Aug 2028
Scum System Improvements, SWRP	24-177-3P	30,000	942	Aug 2028
West Side Intercepting Sewer No. 3-D Rehabilitation, SSA	24-174-3S	19,000	562	Oct 2028
Lemont Intercepting Sewer No. 4 Rehabilitation, CSA	23-266-3S	11,000	562	Nov 2028
Fermentation and Ancillary Facilities for Biological Phosphorus Removal Phase I, OWRP	20-085-3P	100,000	802	Dec 2028
Battery B Final Settling Tanks, Rehabilitation of Concrete, SWRP	16-128-3D	20,000	513	Feb 2029
Replacement of Devon Avenue Instream Aeration Station, NSA	24-099-3P	13,000	942	May 2029
Replacement of Scale House, Scale, Shop and Storage Buildings, and City Water with Canal Water Service, LASMA	24-185-3D	3,500	970	Jun 2029
Convert WASSTRIP Tanks to Waste Activated Sludge Thickening Tanks and Install Sludge Screen, SWRP	24-178-3P	15,000	1,194	Jul 2029
Install Drain Tile at Blower Building and Porous Pavement Parking Lot, CWRP	24-270-3P	10,000	956	Jul 2029
Calumet Intercepting Sewer Nos. 2, 3, 4, and 10 Rehabilitation, CSA	24-267-3S	30,000	562	Nov 2029
Total Future Awards		\$ 623,346		
Cumulative 2025 and Future Awards		\$ 1,114,036		

Note: All cost figures are in thousands of dollars.

Bold type indicates projects to be financed by "Unlimited Tax Bonds."

APPROPRIATION ORDINANCE NUMBER O24-008**ANNUAL APPROPRIATION ORDINANCE OF THE
METROPOLITAN WATER RECLAMATION DISTRICT
OF GREATER CHICAGO
FOR THE FISCAL YEAR BEGINNING JANUARY 1, 2025
AND ENDING DECEMBER 31, 2025
(CONTINUED)**

And an amount of Estimated Expenditures for the Purpose of the Metropolitan Water Reclamation District Retirement Fund of \$118,736,000.

Section 9. That the appropriation herein of the amounts for the payment of “unpaid bills” or “contractual liabilities,” or to defray the expense of any project or purpose, shall not be construed as an approval or an admission of liability by the Board of Commissioners of any said bills or contractual liabilities, or of any project or purpose mentioned herein but shall be regarded only as the provision of a fund or

Approved as to Form and Legality:

General Counsel

funds, for the payment thereof when said bills or contractual liabilities have been found to be valid and legal obligations against the Metropolitan Water Reclamation District of Greater Chicago and when properly vouchered and audited by the Department of Finance, or when any project or purpose is approved and authorized by the Board of Commissioners of the Metropolitan Water Reclamation District of Greater Chicago, as the case may be.

Section 10. This ordinance shall take effect January 1, 2025.

Approved:

*President,
Board of Commissioners of the
Metropolitan Water Reclamation District
of Greater Chicago*
